### **Summary of Module**

This module introduces the Paramedic Learner to the concept of developing their professional identity as a Paramedic, reflecting upon their role and the concept of professional practice.

Key concepts of Law, Ethics and professional regulation are explored in the context of providing person-centred, holistic care and self-aware reflective practice. Biological, behavioural, cognitive, humanistic and socio-cultural models of mental health will be examined.

Psychological and sociological factors infuencing the development of self and society and its impact upon physical and mental health are explored encouraging the learner to study the individual and communities both subjectively through reflection and narrative as well as objectively through examination of data.

# Learning and Teaching

In line with current learning and teaching principles, a 20-credit module includes 200 learning hours, normally including a minimum of 36 contact hours and maximum of 48 contact hours.

A variety of learning and teaching methods will be used to facilitate achievment of the learning outcomes. Recorded lectures introduce students to key concepts and open up key areas for further exploration and development. Learning is enhanced through the use of self-reflection, peer evaluation and role rehearsal supported by simulation technology where appropriate. Extensive and structured e-learning activities will enable students to prepare for practice and develop their critical understanding. Group work will be an important aspect of the workshops where paramedic students will work together in a safe and supported environment to rehearse the skills required of this specific professional group.

In addition, students will be required to carry out independent learning within this module

The learning and teaching strategies on this module contribute to the development of UWS Graduate Attributes:

Universal – Ethically minded, Research minded, Collaborative

Work Ready - Knowledgeable, Motivated

Successful - Creative, Driven

### **Attendance and Engagement Requirements**

In line with the <u>Student Attendance and Engagement Procedure</u>, Students are academically engaged if they are regularly attending and participating in timetabled oncampus and online teaching sessions, asynchronous online learning activities, course-related learning resources, and complete assessments and submit these on time.

For the purposes of this module, academic engagement equates to the following:

For the purposes of this module, academic engagement equates to the following:

Students are expected to attend 100% of module sessions and complete all assigned asynchronous content. Students who fail to achieve a minimum of 80% attendance will not be eligible for assessment.

### **Equality and Diversity**

The University's Equality, Diversity and Human Rights Procedure can be accessed at the following link: <u>UWS Equality, Diversity and Human Rights Code.</u>

In line with current legislation (Equality Act, 2010) and the UWS Equality, Diversity, and Human Rights Code, our modules are accessible and inclusive, with reasonable adjustment for different needs where appropriate. Module materials comply with University guidance on inclusive learning and teaching, and specialist assistive equipment, support provision and adjustment to assessment practice will be made in accordance with UWS policy and regulations. Where modules require practical and/or laboratory based learning or assessment required to meet accrediting body requirements the University will make reasonable adjustment such as adjustable height benches or assistance of a 'buddy' or helper.

(N.B. Every effort will be made by the University to accommodate any equality and diversity issues brought to the attention of the School)
