

Module Descriptor

Title	Advanced Management Accounting				
Session	2025/26 Status				
Code	ACCT11026	SCQF Level	11		
Credit Points	20	ECTS (European Credit Transfer Scheme)	10		
School	Business and Creative Industries				
Module Co-ordinator	Dr Gerry McPake				

Summary of Module

This module builds on the knowledge gained from the Strategic Management Accounting module which focussed on the disciplines of cost and management accounting used to control costs and support decision making. This module will cover the tools and techniques that generate information needed to evaluate and improve present and projected performance.

The areas covered include forecasting; applications of linear mathematical methods to optimise decisions with constraints; multi-product break-even analysis; strategic cost management philosophy and techniques including activity-based costing, target costing and life-cycle costing; approaches to risk management and measurement, internal and external pricing, and approaches to performance measurement. Students will apply Excel-based tools and techniques in the organisation, analysis, and evaluation of a wide range of business data and understand issues involved in the management of Big Data and application of Analytics.

The learning outcomes covered in this module promote many non-subject specialist skills such as problem-solving skills and thinking skills. The module also offers students the opportunity to conceptualise and debate a range of contemporary issues relating to management accounting.

Module Delivery	On-Campus ¹	Hybrid ²	Online ³	Work -Based
Method		\boxtimes		Learning⁴ —

¹ Where contact hours are synchronous/ live and take place fully on campus. Campus-based learning is focused on providing an interactive learning experience supported by a range of digitally-enabled asynchronous learning opportunities including learning materials, resources, and opportunities provided via the virtual learning environment. On-campus contact hours will be clearly articulated to students.

² The module includes a combination of synchronous/ live on-campus and online learning events. These will be supported by a range of digitally-enabled asynchronous learning opportunities including learning materials, resources, and opportunities provided via the virtual learning environment. On-campus and online contact hours will be clearly articulated to students.

³ Where all learning is solely delivered by web-based or internet-based technologies and the participants can engage in all learning activities through these means. All required contact hours will be clearly articulated to students.

⁴ Learning activities where the main location for the learning experience is in the workplace. All required contact hours, whether online or on campus, will be clearly articulated to students

Lear	ning Outcomes
L1	Develop an in-depth knowledge and understanding of the quantitative techniques utilised by the management accountant.
L2	Demonstrate an in-depth understanding of the strategic cost management accounting techniques available to the management accountant.
L3	Deal with risk and other complex issues arising from the business problems and decisions faced by the management accountant.
L4	Analyse and summarise complex quantitative, financial and accounting information that is within the domain of the management accountant.
L5	

Employability Skills and Personal Development Planning (PDP) Skills				
SCQF Headings	During completion of this module, there will be an opportunity to achieve core skills in:			
Knowledge and	SCQF 11			
Understanding (K and U)	Demonstrate a critical understanding of the principal theories and concepts of management accounting.			
	A systematic knowledge and understanding of management accounting issues informed by the current academic discipline.			
	A critical understanding of a range of specialized concepts; theories and models based on empirical research findings that underpin the study and practice of management accounting.			
	Continue to advance their knowledge and understanding and develop new skills to a high level.			
Practice: Applied	SCQF 11			
Knowledge and Understanding	Use a significant range of practical skills, and techniques associated with the practice of management accounting.			
	Show a comprehensive understanding of techniques applicable to management accounting.			
	Demonstrate originality in the application of knowledge, together with a practical understanding of how established techniques of research and enquiry are used to create and interpret knowledge in management accounting.			
Generic Cognitive skills	SCQF 11			

	Deal with complex issues both systematically and creatively, whilst making rigorous, robust judgments in the absence of complete data.
Communication, ICT and	SCQF 11
Numeracy Skills	Persuasively communicate strategic conclusions to specialist and non- specialist audiences using a wide range of ICT applications.
	Undertake a critical evaluation of a range of numerical and graphical management accounting data.
Autonomy,	SCQF 11
Accountability and Working with Others	Demonstrate autonomy and originality in tackling and solving problems, and act autonomously in planning and implementing tasks at a professional and equivalent level.

Co-requisites	Module Code	Module Title

Learning and Teaching

In line with current learning and teaching principles, a 20-credit module includes 200 learning hours, normally including a minimum of 36 contact hours and maximum of 48 contact hours.

Learning Activities During completion of this module, the learning activities undertaken	Student Learning Hours
to achieve the module learning outcomes are stated below:	(Note: Learning hours include both contact hours and hours spent on other learning activities)
Laboratory / Practical Demonstration / Workshop	36
Asynchronous Class Activity	30
Independent Study	134

TOTAL	200

Indicative Resources

The following materials form essential underpinning for the module content and ultimately for the learning outcomes:

The following materials form the essential underpinning for the module content and ultimately for the learning outcomes:

CIMA Study Text Paper P2, BPP Learning Materials, or Kaplan Publishing 2019 syllabus onwards.

And to a lesser extent: CIMA Study Text Paper P1, BPP Learning Materials or Kaplan Publishing 2019 syllabus onwards.

Evans, R. (2020) (3rd edition onwards), Business Analytics, Pearson Education

In addition, professional and academic articles will be advised by the module coordinator on the commencement of the module- with a particular focus on articles relevant to the coursework assignment.

(N.B. Although reading lists should include current publications, students are advised (particularly for material marked with an asterisk*) to wait until the start of session for confirmation of the most up-to-date material)

Attendance and Engagement Requirements

In line with the <u>Student Attendance and Engagement Procedure</u>, Students are academically engaged if they are regularly attending and participating in timetabled oncampus and online teaching sessions, asynchronous online learning activities, course-related learning resources, and complete assessments and submit these on time.

For the purposes of this module, academic engagement equates to the following:

Regular attendance and participation in timetabled workshops, preparation for workshops utilising VLE resources, submission of assessments by deadline.

Equality and Diversity

The University's Equality, Diversity and Human Rights Procedure can be accessed at the following link: <u>UWS Equality, Diversity and Human Rights Code.</u>

Students will normally be required to use standard business software such as Word and Excel as a fundamental part of their course- individual circumstances can be assessed and support provided where students face difficulties in using such software (as below).

(N.B. Every effort will be made by the University to accommodate any equality and diversity issues brought to the attention of the School)

Supplemental Information
