

Module Descriptor

Title	Humanitarian Logistics Management		
Session	2025/26	Status	
Code		SCQF Level	11 (Scottish Credit and Qualifications Framework)
Credit Points	20	ECTS (European Credit Transfer Scheme)	
School	Business and Creative Industries		
Module Co-ordinator	Dr Adebisi Adewole		
Summary of Module			
This module provides the essential framework required for the management of humanitarian logistics in disaster and related situations. It will provide excellent platform for graduates interested in humanitarian relief career and enhance opportunities for professionalism and employability in the Humanitarian Logistics and Supply Chain Management sector. The module will explore humanitarian problems caused by a range of disasters such as migration, floods, earthquakes, wars, desertification resulting from drought and deforestation, chemical and biological weapons victims needing humanitarian aid, and global inequality. The module will help learners to develop critical thinking skills required for managing crisis in disaster situations. At the instance of humanitarian disaster, rescue and resources are rapidly and effectively deployed to the affected scene of occurrence. The module will deliver robust discourse on theories of agile supply chains processes that can respond rapidly to unpredictable events. It will provide education in humanitarian logistics planning, decision making and donor policy, crisis management, disaster response law and international conventions, inter-agencies partnerships building, technology and disaster management, and the role of National governance in disaster relief operations and management.			

Module Delivery Method	On-Campus¹	Hybrid²	Online³	Work -Based Learning⁴
-------------------------------	------------------------------	---------------------------	---------------------------	---

¹ Where contact hours are synchronous/ live and take place fully on campus. Campus-based learning is focused on providing an interactive learning experience supported by a range of digitally-enabled asynchronous learning opportunities including learning materials, resources, and opportunities provided via the virtual learning environment. On-campus contact hours will be clearly articulated to students.

² The module includes a combination of synchronous/ live on-campus and online learning events. These will be supported by a range of digitally-enabled asynchronous learning opportunities including learning materials, resources, and opportunities provided via the virtual learning environment. On-campus and online contact hours will be clearly articulated to students.

³ Where all learning is solely delivered by web-based or internet-based technologies and the participants can engage in all learning activities through these means. All required contact hours will be clearly articulated to students.

⁴ Learning activities where the main location for the learning experience is in the workplace. All required contact hours, whether online or on campus, will be clearly articulated to students

Long-thin Delivery over more than one Term	Term 1 – Term 2	☐	Term 2 – Term 3	☐

Learning Outcomes	
L1	Understand the general concepts of humanitarian logistics management
L2	Develop the ability to carry out advanced assessments, appeal management, operational planning, and mobilisation that are appropriate with different types of disasters and respond to unpredictable events at disaster locations.
L3	Learn with detailed understanding of the stages in Humanitarian Relief Logistics and disaster management. To develop professional competence in disaster prevention, mitigation ,preparedness, response, and reconstruction strategies critical to relief operations.
L4	Understand the influence of humanitarian relief organisations, be they international, national, or local, and the importance of agency-oordination and collaboration to deliver the best relief assistance to disaster victims.
L5	Gain outstanding learning skills through high level participation in lectures, tutorials, group work, and class presentations, and where practicable industry visits/placements, throughout the trimester this module is being taught.

Employability Skills and Personal Development Planning (PDP) Skills	
SCQF Headings	During completion of this module, there will be an opportunity to achieve core skills in:
Knowledge and Understanding (K and U)	SCQF 11 Students are expected to be able to demonstrate a range of cognitive and intellectual skills together with techniques specific to Humanitarian logistics and supply chain management. They should also demonstrate relevant personal and interpersonal skills including, critical thinking and creativity: managing creative processes in self and others; organising thoughts, critical analysis, synthesis, and critical appraisal. This includes the capability to identify assumptions, evaluate statements in terms of evidence, detect false logic or reasoning, identify implicit values, define terms adequately and generalise appropriately.
Practice: Applied Knowledge and Understanding	SCQF 11 Practice and techniques for the design and management of humanitarian logistics architecture. Critical evaluation and understanding situations that can have impact on delivery of relief to

	disaster victims. Ability to create, identify and evaluate options; the ability to implement and review decisions. Ethics and value management: recognising ethical situations, applying ethical and organisational values to situations and choices.
Generic Cognitive skills	SCQF 11 Personal effectiveness: self-awareness and self-management; time management; sensitivity to disaster situations at different locations; the ability to act promptly.
Communication, ICT and Numeracy Skills	SCQF 11 Effective use of Communication and Information Technology (ICT). Two-way communication: listening, negotiating, and persuading or influencing others; oral and written communication, using a range of media, and ability to conduct research into relief supply chains in disaster situations. Learning through reflection on practice and experience
Autonomy, Accountability and Working with Others	SCQF 11 Effective performance within a team-working environment and the ability to recognise and utilise individuals' contributions in group processes, team selection, delegation, development and management. Leadership and performance management: selecting appropriate leadership style for situations; setting targets, motivating, monitoring performance, coaching and mentoring, continuous improvement.

Prerequisites	Module Code N/A	Module Title N/A
	Other	
Co-requisites	Module Code N/A	Module Title N/A

Learning and Teaching	
In line with current learning and teaching principles, a 20-credit module includes 200 learning hours, normally including a minimum of 36 contact hours and maximum of 48 contact hours.	
Learning Activities During completion of this module, the learning activities undertaken to achieve the module learning outcomes are stated below:	Student Learning Hours (Note: Learning hours include both contact hours and hours spent on other learning activities)
Lecture / Core Content Delivery	30
Tutorial / Synchronous Support Activity	10
Asynchronous Class Activity	40
Independent Study	120

(N.B. Although reading lists should include current publications, students are advised (particularly for material marked with an asterisk*) to wait until the start of session for confirmation of the most up-to-date material)

Attendance and Engagement Requirements

In line with the [Student Attendance and Engagement Procedure](#), Students are academically engaged if they are regularly attending and participating in timetabled on-campus and online teaching sessions, asynchronous online learning activities, course-related learning resources, and complete assessments and submit these on time.

For the purposes of this module, academic engagement equates to the following:

It is expected that students will attend all scheduled classes or participate with all delivered elements as part of their engagement with their programme of study. Please refer to UWS Regulation 5.7.

Equality and Diversity

The University's Equality, Diversity and Human Rights Procedure can be accessed at the following link: [UWS Equality, Diversity and Human Rights Code](#).

The University of the West of Scotland's (UWS) purpose is to change lives, transform communities and encourage enterprise through outstanding, distinctive and progressive higher education. UWS values equality and diversity. We strive to create an inclusive culture which celebrates difference and unlocks the talent in our staff and students. UWS aims to be a provider of choice for students and business and believes that embedding equality, diversity and human rights in our organisation is integral to achieving this aim. UWS is committed to advancing and promoting equality and diversity in all of its activities and aims to establish an inclusive culture free from discrimination and based upon the values of fairness, dignity and respect.

(N.B. Every effort will be made by the University to accommodate any equality and diversity issues brought to the attention of the School)
