Module Descriptor

Session: 2024/25

Title of Module: Finance & Accounting Dissertation (CIMA)			
Code: ACCT11029	SCQF Level: 11 (Scottish Credit and Qualifications Framework)	Credit Points: 20	ECTS: 10 (European Credit Transfer Scheme)
School:	School of Business & Creative Industries		
Module Co-ordinator:	Dr Gerry McPake		

Summary of Module

This module develops students' understanding of, and skills in, the academic research process. Students are introduced to the philosophical concepts underpinning good research and a range of qualitative and quantitative research methods. Students build upon and further develop their research proposals to show their abilities to choose feasible and robust research ideas, to formulate achievable aims and objectives, and select and design appropriate research strategies.

This module also aims to provide students with an opportunity to undertake a sustained, rigorous, and independent investigation of applied finance or/and accounting topics. Therefore, students are required to choose a topic, theme, or problem for investigation and provide a rationale for its selection; identify a series of specific research questions and objectives for the proposed investigation; and formulate a research design appropriate to the problem or topic identified.

The resulting dissertation should present and interpret research findings and critically evaluate the relevant underpinning academic and professional literature. In addition, it is also intended that the experience of carrying out the applied research and writing up the results will provide participants with opportunities to:

- Demonstrate their capability for analysis and reflection.
- Develop the skills and knowledge necessary for lifelong professional development.
- Acquire the confidence and capability to progress in the field of finance or/and accounting.
