Learning and Teaching

In line with current learning and teaching principles, a 20-credit module includes 200 learning hours, normally including a minimum of 36 contact hours and maximum of 48 contact hours.

This module provides students with the opportunity to develop critical awareness and understanding of major issues to do with the contemporary organisation. Students will be expected to develop their skills of reading and synthesising complex academic texts whilst relating these to real life case study situations. Students will work creatively in groups with their peers as well as producing individual pieces of analytical work. The module content reflects the cross-cultural issues prevalent in modern business transactions, and the need for student awareness of these will be reflected in the running of the module

Learning Activities During completion of this module, the learning activities undertaken to achieve the module learning outcomes are stated below:	Normally totalling 200 hours): (Note: Learning hours include both contact hours and hours spent on other learning activities)	
Laboratory/Practical Demonstration/Workshop	18	
Independent Study	82	
	Hours Total 100	

**Indicative Resources: (eg. Core text, journals, internet access)

Students will have access to UWS library facilities so that core texts will be supplemented by case studies, academic journal articles and bespoke on-line resources.

Please ensure the list is kept short and current. Essential resources should be included, broader resources should be kept for module handbooks / Aula VLE.
