Summary of Module

When disasters occur, they test the degree of responses of the Humanitarian relief organisations, especially the capacity of the actors to work together. Disaster occurrences demand solutions that include governments, military, civil society, and humanitarian relief agencies, who under normal circumstances have little incentives to work together for an extended period of time. Yet, when a disaster strikes, they are suddenly faced with the pressure to combine all their capacity and capability to relieve human suffering.

This taught module will deliver solutions for getting different actors to work together by sharing processes and distribution channels. It will explore innovative supply chain Management approaches that go beyond mere logistics of moving goods from point A to point B in a structure that will effectively coordinate performance, eliminate redundancies, and maximize efficiencies in terms of costs and speed. The module aims to address the increasing need for skilled professionals in humanitarian disaster relief operations, prompted by the frequent occurrence of disasters worldwide. Its primary goal is to improve professionalism and job prospects within the humanitarian logistics and supply chain management sector.

| Learning Outcomes: (maximum of 5 statements) These should take cognisance of the SCQF level descriptors and be at the appropriate level for the module. At the end of this module the student will be able to: | |
|---|---|
| L1 | Demonstrate an understanding of the humanitarian logistics beyond the movement of relief materials from point A to point B. |
| L2 | Demonstrate the theoretical understanding of assessing the different types of disaster. |
| L3 | Develop the leadership and management skills that enhance inter-agency and disaster community collaborations. |
| L4 | Develop the ability for risk management in disaster situations and explore fund-raising strategies for the purpose of post-disaster recovery operations. |
| L5 | Understand the role of technology in disaster management. |
| Employability Skills and Personal Development Planning (PDP) Skills | |
| SCQF Headings | During completion of this module, there will be an opportunity to achieve core skills in: |
| Knowledge and Understanding (K and U) | <p>SCQF Level 11</p> <p>Students are expected to be able to demonstrate a range of cognitive and intellectual skills together with techniques specific to Logistics Resilience and Optimisation</p> <p>They should also demonstrate relevant personal and interpersonal skills including, critical thinking and creativity: managing creative processes in self and others; organising</p> |

| Learning and Teaching | |
|--|--|
| In line with current learning and teaching principles, a 20-credit module includes 200 learning hours, normally including a minimum of 36 contact hours and maximum of 48 contact hours. | |
| Learning Activities During completion of this module, the learning activities undertaken to achieve the module learning outcomes are stated below: | Student Learning Hours (Normally totalling 200 hours): (Note: Learning hours include both contact hours and hours spent on other learning activities) |
| Lecture/Core Content Delivery | 24 |
| Tutorial/Synchronous Support Activity | 12 |
| Asynchronous Class Activity | 6 |
| Independent Study | 158 |
| Choose an item. | 200 Hours Total |
| **Indicative Resources: (eg. Core text, journals, internet access) | |
| <p>The following materials form essential underpinning for the module content and ultimately for the learning outcomes:</p> <p>Textbooks:</p> <p>John Manners-Bell (2023) Supply Chain Risk Management: How to Design and Manage Resilient Supply Chains</p> <p>Graham, Heaslip and Tatham Peter (2022) Humanitarian Logistics: meeting the challenge of preparing and responding to disaster and complex emergencies; Kogan Page</p> <p>Gyöngyi Kovács, Karen Spens and Mohammad Moshtari (2017) The Palgrave Handbook of Humanitarian Logistics and Supply Chain Management</p> <p>Please ensure the list is kept short and current. Essential resources should be included, broader resources should be kept for module handbooks / Aula VLE.</p> <p>Resources should be listed in Right Harvard referencing style or agreed professional body deviation and in alphabetical order.</p> | |

(**N.B. Although reading lists should include current publications, students are advised (particularly for material marked with an asterisk*) to wait until the start of session for confirmation of the most up-to-date material)

Attendance and Engagement Requirements

In line with the [Student Attendance and Engagement Procedure](#): Students are academically engaged if they are regularly attending and participating in timetabled on-campus and online teaching sessions, asynchronous online learning activities, course-related learning resources, and complete assessments and submit these on time.

For the purposes of this module, academic engagement equates to the following:

Students must attend and actively participate in every face-to-face and online sessions. Students must undertake directed reading and preparation before coming to each tutorial sessions including any asynchronous activities.
