### Summary of Module

Hence, building on the fundamental understanding developed at level 7 (first year), this module further explores the role of HRM in an organisational context. This includes a critical discussion around the contribution HR departments make in order to support the achievement and exceeding of organisational performance as well as the meeting of organisational objectives.

Furthermore, the modules explores the extent to which the HR function has and will continue to evolve, as well as the degree to which it adds value, and how to measure such value in organisations.

The module has been designed with our HRM students in mind, where the roles HR staff, managers and others have in developing and implementing meaningful HR policies and practices is covered, such as line managers, consultants and HR specialists.
