Assessment: (also refer to Assessment Outcomes Grids below)

This section should make transparent what assessment categories form part of this module (stating what % contributes to the final mark).

Maximum of 3 main assessment categories can be identified (which may comprise smaller elements of assessment).

NB: The 30% aggregate regulation (Reg. 3.9) (40% for PG) for each main category must be taken into account. When using PSMD, if all assessments are recorded in the one box, only one assessment grid will show and the 30% (40% at PG) aggregate regulation will not stand. For the aggregate regulation to stand, each component of assessment must be captured in a separate box.

Please provide brief information about the overall approach to assessment that is taken within the module. In order to be flexible with assessment delivery, be brief, but do state assessment type (e.g. written assignment rather than “essay” / presentation, etc) and keep the detail for the module handbook. Assessment 1

Through directed class study/exercises and individual tutorials, students will have the opportunity for formative and peer-based feedback before the submission of both written, summative assessments. Students with specific requirements will be fully accommodated in accordance with university guidelines.

Assessment 1: A portfolio of writings (equivalent of 1,500-word), for any popular music-related research field or discipline (pending lecturer approval). The portfolio will contain a range of different music writings, including media-based reviews and journal-based reviews, press releases and technical writing. The portfolio should demonstrate writing abilities in academic, popular/journalistic and industry writing about popular music.

Assessment 2

A 2,000-word scholarly essay based on the subject presented in assessment 1 or any popular music-related research field or discipline (pending lecturer approval) incorporating engagement with at least ten independently researched scholarly secondary sources, of which at least five need to be physically or electronically located within the UWS library system.

(N.B. (i) **Assessment Outcomes Grids** for the module (one for each component) can be found below which clearly demonstrate how the learning outcomes of the module will be assessed.

(ii) An **indicative schedule** listing approximate times within the academic calendar when assessment is likely to feature will be provided within the Student Module Handbook.)
