## **Module Descriptor**

#### Session: 2024/25

Title of Module: Theory and Performance							
Code: PERF 08004	SCQF Level: 8 (Scottish Credit and Qualifications Framework)	Credit Points: 20	ECTS: (European Credit Transfer Scheme)				
School:	School of BCI						
Module Co-ordinator:	Dr Stephen Collins						

### **Summary of Module**

Building on the work of SCQF 7 Reading Performance, Theory and Performance introduces students to more advanced and specialised theories of performance and reception. Specifically, this module is designed to enable students to consider different frameworks of performance making and reception and to engage in a deeper analysis of the performance event, the context of its creation, dissemination, and reception. Through lectures, tutorials and VLE activity, students will engage with a range of critical theories and apply them to the analysis of performance.

## Assessment: (also refer to Assessment Outcomes Grids below)

This section should make transparent what assessment categories form part of this module (stating what % contributes to the final mark).

Maximum of 3 main assessment categories can be identified (which may comprise smaller elements of assessment).

NB: The 30% aggregate regulation (Reg. 3.9) (40% for PG) for each main category must be taken into account. When using PSMD, if all assessments are recorded in the one box, only one assessment grid will show and the 30% (40% at PG) aggregate regulation will not stand. For the aggregate regulation to stand, each component of assessment must be captured in a separate box. Please provide brief information about the overall approach to assessment that is taken within the module. In order to be flexible with assessment delivery, be brief, but do state assessment type (e.g. written assignment rather than "essay" / presentation, etc ) and keep the detail for the module handbook. Click or tap here to enter text.

Assessment 1 – Concept document of 2 pages detailing an idea for an original performance piece (100%)

(N.B. (i) **Assessment Outcomes Grids** for the module (one for each component) can be found below which clearly demonstrate how the learning outcomes of the module will be assessed.

(ii) An **indicative schedule** listing approximate times within the academic calendar when assessment is likely to feature will be provided within the Student Module Handbook.)
