## Module Descriptor

Session: 2024/25

<b>Title of Module: Professional Practice in Creative Industries</b>			
<b>Code: BROA10004</b>	<b>SCQF Level: 10 (Scottish Credit and Qualifications Framework)</b>	<b>Credit Points: 20</b>	<b>ECTS: 10 (European Credit Transfer Scheme)</b>
<b>School:</b>	School of Business and Creative Industries		
<b>Module Co-ordinator:</b>	Kate Cotter		
<b>Summary of Module</b>			
<p>The purpose of this module is to act as an exit module for the students. It is industry focussed as industry practitioners will deliver the content of the module. This will allow the students to become more familiar with current broadcast industry professional practice.</p> <p>One of the most significant developments in the digital environment is the rise of the 'network society' in terms of the culture and economy of the Internet. The students will gain an understanding from the industry practitioners of the need for digital broadcasting companies to adjust to the rapidly changing modes of content delivery and increasingly uncertain audience responses.</p> <p>Central to the student's learning will be their ability to reflect on their own work experience and the knowledge gained from the industry practitioners especially in terms of their own assumptions about the industry and current models of employability. A field trip to a broadcasting company will form part of the module.</p> <p>The focus of this module will lead the students to interact with industry professionals and therefore possible future employment pathways.</p> <p>Key Elements:</p> <ul style="list-style-type: none"> <li>• Input from Industry Practitioners on current practices in Broadcasting</li> <li>• Input from UWS Careers Staff</li> <li>• Field trip to Broadcasting company</li> </ul>

**Assessment: (also refer to Assessment Outcomes Grids below)**

This section should make transparent what assessment categories form part of this module (stating what % contributes to the final mark).

Maximum of 3 main assessment categories can be identified (which may comprise smaller elements of assessment).

**NB: The 30% aggregate regulation (Reg. 3.9) (40% for PG) for each main category must be taken into account. When using PSMD, if all assessments are recorded in the one box, only one assessment grid will show and the 30% (40% at PG) aggregate regulation will not stand. For the aggregate regulation to stand, each component of assessment must be captured in a separate box.**

Please provide brief information about the overall approach to assessment that is taken within the module. In order to be flexible with assessment delivery, be brief, but do state assessment type (e.g. written assignment rather than “essay” / presentation, etc ) and keep the detail for the module handbook. [Click or tap here to enter text.](#)

**Assessment 1 –**

The first assessment for this module will be an extended essay of 3,000 words. The essay will discuss the changing modes of content distribution and the will show changing nature of audience expectations and consumption within television, radio and online delivery. It will show a critical understanding of key influences and research that informs the arguments stated.

**Assessment 2 –**

The second assessment is a portfolio and a self-reflective 500 word report which should identify the student’s professional skills and evaluate their ability to undertake further developments as an industry practitioner or equivalent.

(N.B. (i) **Assessment Outcomes Grids** for the module (one for each component) can be found below which clearly demonstrate how the learning outcomes of the module will be assessed.

(ii) An **indicative schedule** listing approximate times within the academic calendar when assessment is likely to feature will be provided within the Student Module Handbook.)
