Title of Module: Advanced Law of Obligations			
Code: LAWW10017	SCQF Level: 10 (Scottish Credit and Qualifications Framework)	Credit Points: 20	ECTS: 10 (European Credit Transfer Scheme)
School:	School of Business & Creative Industries		
Module Co-ordinator:	Nishant Gokhale		
Summary of Module			
<p>This module will explore advanced concepts and contentious issues relating to voluntary and involuntary obligations, the main emphasis being upon the Law of Contract and the Law of Delict.</p> <p>The syllabus in law of contract will examine the latest developments in the Law of Contract from formation of a contract to breach of contract and termination of contracts. The module will cover different areas selected by the lecturer in each academic year and will involve a critical appraisal of the current state of the law in each particular area as well as an assessment of approaches in other jurisdictions. This may, for example, involve the issues of controlling or restricting liability in contracts, developments in the law relating to error in the Law of Contract and issues of frustration of contract.</p> <p>The same approach will be taken in respect of the Law of Delict. The primary focus will be on developments in the law of negligence, including liability for psychiatric injury, though some consideration may also be given to statutory liability, such as occupiers' liability and liability for animals, and specific delicts, including defamation and verbal injury, nuisance, and fraud. Once again, this section will involve a critical appraisal of the current state of the law in each particular area as well as an assessment of approaches in other jurisdictions. This may, for example, involve the issues of causation and scope of liability, pure economic loss, alternatives to a nuisance based approach and developments in the law of confidence.</p> <ul style="list-style-type: none"><li>• This module is developed in accordance with the UWS Graduate Attributes and helps students to develop the range of skills, qualities and abilities which will prepare them for success both outwith university and beyond their period of study at UWS. For the purposes of this module, academic engagement equates to the following:

Students are required to attend scheduled teaching sessions and engage with the Virtual Learning Environment, lack of which could result in the student being referred to the Engagement Panel, and could prevent student progression, and ultimately successful degree completion.

### **Equality and Diversity**

The University's Equality, Diversity and Human Rights Procedure can be accessed at the following link: [UWS Equality, Diversity and Human Rights Code](#).

Please ensure any specific requirements are detailed in this section. Module Co-ordinators should consider the accessibility of their module for groups with protected characteristics..

<b>Assessment: (also refer to Assessment Outcomes Grids below)</b>
<p>This section should make transparent what assessment categories form part of this module (stating what % contributes to the final mark). Maximum of 3 main assessment categories can be identified (which may comprise smaller elements of assessment).</p> <p><b>NB: The 30% aggregate regulation (Reg. 3.9) (40% for PG) for each main category must be taken into account. When using PSMD, if all assessments are recorded in the one box, only one assessment grid will show and the 30% (40% at PG) aggregate regulation will not stand. For the aggregate regulation to stand, each component of assessment must be captured in a separate box.</b></p> <p>Please provide brief information about the overall approach to assessment that is taken within the module. In order to be flexible with assessment delivery, be brief, but do state assessment type (e.g. written assignment rather than “essay” / presentation, etc ) and keep the detail for the module handbook. <a href="#">Click or tap here to enter text.</a></p>
Assessment 1: An essay worth 50% of the overall mark critically evaluating developments in the Law of Contract.
Assessment 2: An essay worth 50% of the overall mark critically evaluating developments in the Law of Delict.
(N.B. (i) <b>Assessment Outcomes Grids</b> for the module (one for each component) can be found below which clearly demonstrate how the learning outcomes of the module will be assessed.

(ii) An **indicative schedule** listing approximate times within the academic calendar when assessment is likely to feature will be provided within the Student Module Handbook.)
