Summary of Module			
<p>This module is designed for learners who have completed ELS 7.1, 7.2 and 8.1, or who have reached the mid-high band of B2 level.</p> <p>The aim is to allow learners to continue on their journey through CEFR B2 so that they can continue to develop their ability to ‘understand the main ideas of complex text on both concrete and abstract topics, including technical discussions in his/her field of specialisation, interact with a degree of fluency and spontaneity that makes regular interaction with native speakers quite possible without strain for either party, produce clear, detailed text on a wide range of subjects and explain a viewpoint on a topical issue giving the advantages and disadvantages of various options’ (Council of Europe CEFR B2 level descriptor, 2024).</p> <p>This continuing journey will involve students being exposed to and engaging with authentic examples of language at a level, and on themes, that are appropriate to the overall programme and can be tailored to individual interests and research ideas. As students are now taking content-based modules elsewhere in their BA EL programme, they will now be able to incorporate further research on, discussion of, and output related to, the content of these modules.</p> <p>This journey will be supported through use of a level-appropriate course book (Cambridge Unlock, Level 5) which provided guided practice with and use of all four English language skills, and which is further augmented by weekly in class skill-based tasks and by independent study.</p>
