Module Descriptor

Session: 2024/25

Title of Module: Children's Literature			
Code: UGED08001	SCQF Level: 8 (Scottish Credit and Qualifications Framework)	Credit Points: 20	ECTS: 10 (European Credit Transfer Scheme)
School:	School of Education and Social Sciences		
Module Co-ordinator:	J Ellis		
Summary of Module			
<p>Recognising that books for children reflect aspects of the culture, society and age in which they are written, students study children's literature not only as a literary field in itself but also in terms of its social, cultural, and historical constructions. In this module, students explore the ways in which children are introduced, through text (novels, graphic novels and picture books), to messages, value systems, and sensitive topics, thereby developing critical debate and enquiry in the field of children's literature. In addition, they consider ways in which issues of marginalisation, exclusion and conflict are explored in children's literature. Students have the opportunity to examine different modes of narrative in picture and verbal text and decode visual elements in picture books.</p> <p>As this module is offered not only to students on the B.A. Education programme, but to other students on a range of programmes, it is not exclusively designed to support students towards meeting the GTC Scotland Standard for Provisional Registration (2021). Through studying this module, however, students know how to access and apply relevant findings from educational research (SPR 2.1.2) and work collaboratively to share their professional learning and development with colleagues (SPR 3.3.2).</p> <p>In relation to learning for sustainability, students engage in critical reflection and use enquiring/critical approaches. They also explore global citizenship.</p> <p>Students develop UWS Graduate Attributes and demonstrate, in particular, that they are critical thinkers, effective communicators, collaborative, research-minded, emotionally intelligent, and culturally aware.</p>

Learning and Teaching

In line with current learning and teaching principles, a 20-credit module includes 200 learning hours, normally including a minimum of 36 contact hours and maximum of 48 contact hours.

In all modules on the BA Education programme, we take an authentic, best-practice and forward-looking approach to learning activities and assessment. There is a strong emphasis on situated learning and real professional scenarios. We are committed to interactive learning and the small number of learning activities that are purely transmission of information are normally pre-recorded. In workshops, which utilise classrooms, and other facilities as appropriate, the outdoors and the Aula VLE, main methodologies include collaborative working and student presentations. All learning activities are aligned to relevant aspects of the professional standards. Individual,

group or tutor-led reflection is required throughout. Learning activities develop 21 st century skills such as communication, collaboration, and critical thinking. Learning activities, assessment and feedback, where appropriate, provide students with choice, such as selection of a children's book for the final assessment.	
Learning Activities During completion of this module, the learning activities undertaken to achieve the module learning outcomes are stated below:	Student Learning Hours (Normally totalling 200 hours): (Note: Learning hours include both contact hours and hours spent on other learning activities)
Lecture/Core Content Delivery	28
Tutorial/Synchronous Support Activity	0
Independent Study	172
	Hours Total 200

Cambridge: Lutterworth Press.</p> <p>Gamble, N. (2019). Exploring Children's Literature 4th edition. London: Sage</p> <p>Gopalakrishnan, A. (2011). Multicultural Children's Literature: A Critical Issues Approach. Los Angeles: Sage.</p> <p>Smidt, S. (2012). Reading the World: What Young Children Learn From Literature. Stoke on Trent: Trentham.</p> <p>Children's novels and picture books are also required reading. These change on a regular basis. Details are shared with students at the end of term preceding the start of the module.</p> <p>Please ensure the list is kept short and current. Essential resources should be included, broader resources should be kept for module handbooks / Aula VLE.</p> <p>Resources should be listed in Right Harvard referencing style or agreed professional body deviation and in alphabetical order.</p>	
(**N.B. Although reading lists should include current publications, students are advised (particularly for material marked with an asterisk*) to wait until the start of session for confirmation of the most up-to-date material)	
Attendance and Engagement Requirements	

In line with the [Student Attendance and Engagement Procedure](#): Students are academically engaged if they are regularly attending and participating in timetabled on-campus and online teaching sessions, asynchronous online learning activities, course-related learning resources, and complete assessments and submit these on time.

For the purposes of this module, academic engagement equates to the following:

All fulltime students (part-time and distant learning students should check with their programme leader for any queries) are required to attend all scheduled classes and participate with all delivered elements of the module as part of their engagement with their programme of study. Consideration will be given to students who have protection under the appropriate equality law. Please refer to UWS Regulations, Chapter 1, 1.64 – 1.67, available at the following link:

<http://www.uws.ac.uk/current-students/rights-and-regulations/regulatory-framework/>

In accordance with module and programme handbooks, any student whose attendance has fallen below the 75% minimum requirement for a module could be withdrawn from and given a re-attend decision for that module. To assure placement partners that students are appropriately prepared to undertake periods of school experience, unsatisfactory attendance across academic modules may prevent progress to placement, or result in withdrawal from the programme, as a student would be deemed not to have met the professional requirements of the programme as accredited by the GTC Scotland.

Equality and Diversity

The University's Equality, Diversity and Human Rights Procedure can be accessed at the following link: [UWS Equality, Diversity and Human Rights Code](#).

Please ensure any specific requirements are detailed in this section. Module Co-ordinators should consider the accessibility of their module for groups with protected characteristics..

Aligned with the overall commitment to equality and diversity stated in the Programme Specification, the module supports equality of opportunity for students from all backgrounds and with different learning needs. Using the VLE, learning materials are presented electronically in formats that allow flexible access and manipulation of content. The module complies with University regulations and guidance on inclusive learning and teaching practice. Specialist assistive equipment, support provision and adjustment to assessment practice will be made in accordance with UWS policy and regulations.

Student teachers are encouraged to reflect on their developing understanding of aspects relating to equality and diversity and to consider how this helps them to work towards meeting the Standard for Provisional Registration (GTCS, 2021), of which demonstrating commitment to social justice and inclusion is a significant part.

Through studying this module, student teachers develop knowledge and understanding of biases and their impact on people and practices and challenge these. They create and sustain effective working relationships with colleagues.

A direct focus on these aspects not only advances equality in the student environment, by promoting empathy and affiliation, but also within the school settings where student teachers undertake their school experience.

(N.B. Every effort will be made by the University to accommodate any equality and diversity issues brought to the attention of the School)

Assessment: (also refer to Assessment Outcomes Grids below)

This section should make transparent what assessment categories form part of this module (stating what % contributes to the final mark).

Maximum of 3 main assessment categories can be identified (which may comprise smaller elements of assessment).

NB: The 30% aggregate regulation (Reg. 3.9) (40% for PG) for each main category must be taken into account. When using PSMD, if all assessments are recorded in the one box, only one assessment grid will show and the 30% (40% at PG) aggregate regulation will not stand. For the aggregate regulation to stand, each component of assessment must be captured in a separate box.

Please provide brief information about the overall approach to assessment that is taken within the module. In order to be flexible with assessment delivery, be brief, but do state assessment type (e.g. written assignment rather than “essay” / presentation, etc) and keep the detail for the module handbook. [Click or tap here to enter text.](#)

Assessment 1

Students choose and study a children’s novel that explores a theme. They produce and share a group presentation, outlining their response to the text. The oral presentation comprises 40% of the total module assessment.

Assessment 2

Students produce a written assignment (2000 words) in which they compare the book chosen for the group presentation with another book that addresses a comparable theme. They consider techniques used by authors and illustrators for different audiences. The written assignment comprises 60% of the total module assessment.

To pass the module, students are required to pass both assessment components.

The module handbook contains an outline of the assessment components and the marking criteria.

(N.B. (i) **Assessment Outcomes Grids** for the module (one for each component) can be found below which clearly demonstrate how the learning outcomes of the module will be assessed.

(ii) An **indicative schedule** listing approximate times within the academic calendar when assessment is likely to feature will be provided within the Student Module Handbook.)
