

University of the West of Scotland

Module Descriptor

Session: 202425

Title of Module: Digital Literacy			
Code: UGED08012	SCQF Level: 8 (Scottish Credit and Qualifications Framework)	Credit Points: 20	ECTS: (European Credit Transfer Scheme)
School:	School of Education & Social Sciences		
Module Co-ordinator:	R Fotheringham		
Summary of Module			
<p>Reflecting the ubiquitous nature of digital technologies in society today, students will develop the knowledge, understanding and skills to critically analyse the definitions and theoretical frameworks of digital literacy. Through enquiry, students will deepen their understanding of classroom pedagogies to develop digital literacy in learners. By applying their knowledge, understanding and skills, students will create enquiry networks, collaborating with others to develop their own digital literacy. In line with the new General Teaching Council for Scotland Standard for Provisional Registration, student teachers are required to demonstrate knowledge and understanding of the skills and competences that comprise teacher digital literacy and how to embed digital technologies to enhance teaching and learning. Student teachers are also expected to model and promote competence and confidence in digital literacy.</p> <p>The module will support students towards meeting the GTCS Standard for Provisional Registration by working towards the following standards: Trust and respect (1.1); Professional commitment (1.3); Have knowledge and understanding of pedagogical theories and professional practice (2.1.1); Have knowledge and understanding of curriculum design (2.1.3); Plan effectively to meet learners' needs (3.1.1); Utilise pedagogical approaches and resources (3.1.2); Appropriately organise and manage learning (3.2.1); Engage critically with literature, research and policy (3.3.1). In relation to learning for sustainability, students will engage in critical reflection and use enquiring/critical approaches. They will also make connections to other disciplines.</p> <p>Through participating in the module, students will develop UWS Graduate Attributes and will demonstrate, in particular, that they are critical thinkers, effective communicators, collaborative, innovative, research-minded, digitally literate and creative.</p>			
Module Delivery Method			

Face-To-Face	Blended	Fully Online	HybridC	Hybrid 0	Work-Based Learning
<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
See Guidance Note for details.					

Campus(es) for Module Delivery						
The module will normally be offered on the following campuses / or by Distance/Online Learning: (Provided viable student numbers permit) (tick as appropriate)						
Paisley:	Ayr:	Dumfries:	Lanarkshire:	London:	Distance/Online Learning:	Other:
<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Add name

Term(s) for Module Delivery					
(Provided viable student numbers permit).					
Term 1	<input type="checkbox"/>	Term 2	<input checked="" type="checkbox"/>	Term 3	<input type="checkbox"/>

Learning Outcomes: (maximum of 5 statements) These should take cognisance of the SCQF level descriptors and be at the appropriate level for the module. At the end of this module the student will be able to:	
L1	Demonstrate knowledge and understanding of the definitions and theoretical frameworks for digital literacy.
L2	Critically analyse and evaluate the key ideas, information and issues around the theory, policy and practice of digital literacy in the primary school.
L3	Apply knowledge, understanding and skills to carry out practitioner enquiry into the teaching and learning of digital literacy.
L4	Exercise autonomy and initiative, and manage a range of digital resources to obtain, process and share data.
L5	Work with others to acquire an understanding of current professional practice.
Employability Skills and Personal Development Planning (PDP) Skills	
SCQF Headings	During completion of this module, there will be an opportunity to achieve core skills in:
Knowledge and Understanding (K and U)	SCQF Level 8

	<p>Demonstrate a specialist knowledge and understanding of the main concepts that impinge on discussions involved in digital literacy discussions.</p> <p>Demonstrate an awareness and understanding of some of the major contemporary digital literacy issues explored and the multiple perspectives that impinge on them.</p>	
Practice: Applied Knowledge and Understanding	<p>SCQF Level 8</p> <p>Apply knowledge and understanding, and communication skills relating to digital literacy to present information gathered during practitioner enquiry.</p>	
Generic Cognitive skills	<p>SCQF Level 8</p> <p>Critically analyse and evaluate the key issues around digital literacy. Students will use a range of approaches to investigate the challenges around the development of digital literacy.</p>	
Communication, ICT and Numeracy Skills	<p>SCQF Level 8</p> <p>Convey complex information via face to face and online group discussion with peers using a range of ICT applications to process and display data gathered during practitioner enquiry tasks.</p>	
Autonomy, Accountability and Working with others	<p>SCQF Level 8</p> <p>Exercise autonomy, and initiative in practitioner enquiry undertaken during the module and demonstrate ability to support others.</p>	
Pre-requisites:	Before undertaking this module the student should have undertaken the following:	
	Module Code:	Module Title:
	Other:	
Co-requisites	Module Code:	Module Title:

Learning and Teaching

In line with current learning and teaching principles, a 20-credit module includes 200 learning hours, normally including a minimum of 36 contact hours and maximum of 48 contact hours.

In all modules on the BA Education programme, we take an authentic, best-practice and forward-looking approach to learning activities and assessment. There is a strong emphasis on situated learning and real professional scenarios. We are committed to interactive learning and the small number of learning activities that are purely

transmission of information are normally pre-recorded. In workshops, which utilise classrooms, and other facilities as appropriate, the outdoors and the Aula VLE, main methodologies include collaborative working, problem-based learning, real-world tasks, research-based learning, placement-based learning, enquiry-based learning, student presentations. All learning activities are aligned to relevant aspects of the professional standards. Individual, group or tutor-led reflection is required throughout. Learning activities develop 21st century skills such as communication, collaboration, digital skills, creativity and critical thinking. Learning activities, assessment and feedback, where appropriate, provide students with choice, such as digital warm ups to be presented and creation of a video.

Learning Activities During completion of this module, the learning activities undertaken to achieve the module learning outcomes are stated below:	Student Learning Hours (Normally totalling 200 hours): (Note: Learning hours include both contact hours and hours spent on other learning activities)
Lecture/Core Content Delivery	18
Tutorial/Synchronous Support Activity	18
Independent Study	164
	Hours Total 200

****Indicative Resources: (eg. Core text, journals, internet access)**

The following materials form essential underpinning for the module content and ultimately for the learning outcomes:

Carrington, V and Robinson, M (2012) Digital literacies: social learning and classroom practices. London: UKLA.

Futurelab at NFER <http://www.futurelab.org.uk>

Hafner, A and Jones, R H (2012) Understanding digital literacies: a practical introduction. Oxon: Routledge.

Scottish Council of Deans of Education (2020) The National Framework For Digital Literacies In Initial Teacher Education.

Scottish Government (2016) Curriculum for Excellence: Technologies: Experiences and Outcomes. Edinburgh: Scottish Government.

Scottish Government (2016) Enhancing learning and teaching through the use of digital technology. Edinburgh: Scottish Government.

Please ensure the list is kept short and current. Essential resources should be included, broader resources should be kept for module handbooks / Aula VLE.

Resources should be listed in Right Harvard referencing style or agreed professional body deviation and in alphabetical order.

(**N.B. Although reading lists should include current publications, students are advised (particularly for material marked with an asterisk*) to wait until the start of session for confirmation of the most up-to-date material)

Attendance and Engagement Requirements

In line with the [Student Attendance and Engagement Procedure](#): Students are academically engaged if they are regularly attending and participating in timetabled on-campus and online teaching sessions, asynchronous online learning activities, course-related learning resources, and complete assessments and submit these on time.

For the purposes of this module, academic engagement equates to the following:

All fulltime students (part-time and distant learning students should check with their programme leader for any queries) are required to attend all scheduled classes and participate with all delivered elements of the module as part of their engagement with their programme of study. Consideration will be given to students who have protection under the appropriate equality law. Please refer to UWS Regulations, Chapter 1, 1.64 – 1.67, available at the following link:
<http://www.uws.ac.uk/current-students/rights-and-regulations/regulatory-framework/>

In accordance with module and programme handbooks, any student whose attendance has fallen below the 75% minimum requirement for a module could be withdrawn from and given a re-attend decision for that module. To assure placement partners that students are appropriately prepared to undertake periods of school experience, unsatisfactory attendance across academic modules may prevent progress to placement, or result in withdrawal from the programme, as a student would be deemed not to have met the professional requirements of the programme as accredited by the GTCS.

Equality and Diversity

The University's Equality, Diversity and Human Rights Procedure can be accessed at the following link: [UWS Equality, Diversity and Human Rights Code](#).

Please ensure any specific requirements are detailed in this section. Module Co-ordinators should consider the accessibility of their module for groups with protected characteristics..

Aligned with the overall commitment to equality and diversity stated in the Programme Specification, the module supports equality of opportunity for students from all backgrounds and with different learning needs. Using the VLE, learning materials will be presented electronically in formats that allow flexible access and manipulation of content. The module complies with University regulations and guidance on inclusive learning and teaching practice. Specialist assistive equipment, support provision and adjustment to assessment practice will be made in accordance with UWS policy and regulations.

Student teachers are encouraged to reflect on their developing understanding of aspects relating to equality and diversity and to consider how this helps them to work towards meeting the Standard for Provisional Registration (GTCS, 2021), of which demonstrating commitment to social justice and inclusion is a significant part.

Through studying this module, student teachers employ teaching strategies and resources, including digital approaches, to meet the needs and abilities of every learner

A direct focus on these aspects not only advances equality in the student environment, by promoting empathy and affiliation, but also within the school settings where student teachers undertake their school experience.

(N.B. Every effort will be made by the University to accommodate any equality and diversity issues brought to the attention of the School)

Divisional Programme Board	Education
Assessment Results (Pass/Fail)	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/>
School Assessment Board	Education
Moderator	C Webster
External Examiner	L. Waddell
Accreditation Details	General Teaching Council for Scotland
Changes/Version Number	1.02

Assessment: (also refer to Assessment Outcomes Grids below)

This section should make transparent what assessment categories form part of this module (stating what % contributes to the final mark).

Maximum of 3 main assessment categories can be identified (which may comprise smaller elements of assessment).

NB: The 30% aggregate regulation (Reg. 3.9) (40% for PG) for each main category must be taken into account. When using PSMD, if all assessments are recorded in the one box, only one assessment grid will show and the 30% (40% at PG) aggregate regulation will not stand. For the aggregate regulation to stand, each component of assessment must be captured in a separate box.

Please provide brief information about the overall approach to assessment that is taken within the module. In order to be flexible with assessment delivery, be brief, but do state assessment type (e.g. written assignment rather than “essay” / presentation, etc) and keep the detail for the module handbook. [Click or tap here to enter text.](#)

Students will maintain a reflective blog throughout the module, submitted electronically to the Module Coordinator. The blog will be maintained throughout the module and will be used to evidence developing skills, knowledge and understanding of the role played by digital literacy within primary education.

The reflective blog will:

- Provide clear analysis of own knowledge, skills and understanding and an ability to evaluate the role of digital literacy within primary education.
- Demonstrate a critical understanding of the research and theoretical background to digital literacy in learning and teaching. There should be evidence of sufficient reading of relevant sources with appropriate referencing and quotes that are well integrated in the text.
- Produce a well-structured response which is written in a clear style, conforms to requirements regarding layout and content, follows accurately the University conventions for referencing, and shows evidence of careful editing and proof-reading avoiding grammatical and spelling errors.

Formative, written feedback will be provided on the first weekly blog entry.

The reflective blog will be 300 words (+/- 10%).

Student handbooks, and other detailed material made available to students, will clarify the relationship between formative assessment and the specific learning outcomes for the module. This will ensure that students can relate feedback from formative assessment to their individual progress on the learning outcomes for the module. On summative assessments, students will receive detailed information indicating the ways in which summative assessments will assess individual learning outcomes for the module. As appropriate, students will also receive detailed information on how feedback will be provided for assessments.

(N.B. (i) **Assessment Outcomes Grids** for the module (one for each component) can be found below which clearly demonstrate how the learning outcomes of the module will be assessed.

(ii) An **indicative schedule** listing approximate times within the academic calendar when assessment is likely to feature will be provided within the Student Module Handbook.)

Assessment Outcome Grids (See Guidance Note)

Component 1							
Assessment Type (Footnote B.)	Learning Outcome (1)	Learning Outcome (2)	Learning Outcome (3)	Learning Outcome (4)	Learning Outcome (5)	Weighting (%) of Assessment Element	Timetabled Contact Hours
Workbook/ Laboratory notebook/ Diary/ Training log/ Learning log	✓	✓	✓	✓	✓	100	0
Combined Total for All Components						100%	0 hours
