### Summary of Module

This module is designed for students undertaking a work placement abroad during a sandwich year abroad. Students are normally required to have successfully passed the first two years at university level within their respective programme before undertaking placement abroad. Students are required to spend a full year abroad in a language assistant's post in a primary or secondary school under contract with the British Council. The number of weeks will depend on the destination country and might vary between 30 weeks and 36 weeks.

This experience enables students to become truly at ease in a foreign language and culture and this is demonstrated by their ability to work in a foreign language. By successfully completing the placement students will demonstrate that they are able to deal with unfamiliar environments and with people across cultural boundaries. This will provide a valuable addition to students' CVs in terms of employability and future career planning.

On successful completion of this module students will be awarded 20 placement credit points (SCQF level 9).

<b>Learning and Teaching</b>
------------------------------

In line with current learning and teaching principles, a 20-credit module includes 200 learning hours, normally including a minimum of 36 contact hours and maximum of 48 contact hours.

The module is focused on work based learning abroad. By working in a country where their chosen language is the first language, students are able to develop a greater understanding of that language and culture. They are also able to become more confident in their use of that language. Students will have regular online meetings with a member of UWS staff. Students are encouraged to reflect on their learning through maintenance of a learning log. Students will submit a 2,500 words reflective report on what they have learned, supported by evidence from the learning log (50%). They will also be required to have an individual interview, during which students will critically assess their personal development, application of essential employability skills and attributes within the work placement context, and relate work experience to aspects of academic study (50%).

Assessment will be pass/fail only.

### Attendance and Engagement Requirements

In line with the [Student Attendance and Engagement Procedure](#), Students are academically engaged if they are regularly attending and participating in timetabled on-campus and online teaching sessions, asynchronous online learning activities, course-related learning resources, and complete assessments and submit these on time.

**For the purposes of this module, academic engagement equates to the following:**

The university is committed to providing a supportive learning environment that actively facilitates student success. In this module, there is a high degree of student-led flexibility. You are academically engaged if you are regularly engaged with scheduled live sessions on-campus and online, including engaging with online learning activities in your own time, course-related learning resources, and with timely completion and submission of assessments.

Whilst we understand that there may be times when conflicting priorities make participation challenging, for you to gain the most from this module it is recommended that you participate in all scheduled live classes and complete your self-directed learning activities in a timely manner.

It may be difficult to pass the assessment associated with this module if you are not regularly engaging with the module work and live classes. We may reach out to check how things are going and offer support if we observe that you have not been attending sessions or completing online activities.

### Equality and Diversity

**The University's Equality, Diversity and Human Rights Procedure can be accessed at the following link: [UWS Equality, Diversity and Human Rights Code](#).**

In line with current legislation (Equality Act, 2010) and the UWS Equality, Diversity, and Human Rights Code, our modules are accessible and inclusive, with reasonable adjustment for different needs where appropriate. Module materials comply with University guidance on inclusive learning and teaching, and specialist assistive equipment, support provision and adjustment to assessment practice will be made in accordance with UWS policy and regulations. Where modules require practical and/or laboratory based learning or assessment required to meet accrediting body requirements the University will make reasonable adjustment such as adjustable height benches or assistance of a 'buddy' or helper.

**(N.B. Every effort will be made by the University to accommodate any equality and diversity issues brought to the attention of the School)**
