Module Descriptor

Session: 2023-24

Title of Module: Democracy & European Political Parties			
Code: PLTC09020	SCQF Level: 9 (Scottish Credit and Qualifications Framework)	Credit Points: 20	ECTS: 10 (European Credit Transfer Scheme)
School:	School of Education and Social Sciences		
Module Co-ordinator:	Mark McNally		
Summary of Module			
<p>This module will introduce students to some of the most important debates on democracy and the role of political parties in contemporary European politics. The first part of the course will explore the role of political parties in modern liberal democracy and their internal organizational structures. This provides the context for examining the role of political parties in a so-called 'crisis of democracy,' considering</p> <p>(a) to what extent they have contributed to this 'crisis';</p> <p>(b) or if have the capacity to provide solutions to the current difficulties of liberal democratic governance and are changing and adapting to do so.</p> <p>The second part of the module will provide students with an opportunity to study a number of specific political parties across European democratic systems within the above framework of analysis (for example, in the UK, the Republic of Ireland, France and the Netherlands). Key questions for consideration include:</p> <ul style="list-style-type: none"> • How successful is the relevant party at fulfilling its democratic functions in its particular representative system? • Has this party contributed to democratic crisis in its particular national context? • How coherent, practical and sincere are its ideas for democratic reform and transformation and how successful has it been at achieving these? • To what extent are the party's ideological commitments undermine or even threaten democratic governance? <p>The module concludes by considering, in light of the course, whether political parties can continue to make meaningful contributions to democracy and its revitalization today.</p>

Assessment: (also refer to Assessment Outcomes Grids below)
<p>This section should make transparent what assessment categories form part of this module (stating what % contributes to the final mark). Maximum of 3 main assessment categories can be identified (which may comprise smaller elements of assessment). NB: The 30% aggregate regulation (Reg. 3.9) (40% for PG) for each main category must be taken into account. When using PSMD, if all assessments are recorded in the one box, only one assessment grid will show and the 30% (40% at PG) aggregate regulation will not stand. For the aggregate regulation to stand, each component of assessment must be captured in a separate box. Please provide brief information about the overall approach to assessment that is taken within the module. In order to be flexible with assessment delivery, be brief, but do state assessment type (e.g. written assignment rather than “essay” / presentation, etc) and keep the detail for the module handbook. Click or tap here to enter text.</p>
Assessment 1 Audio-visual Presentation 30%
Assessment 2 Case Study 70%
<p>(N.B. (i) Assessment Outcomes Grids for the module (one for each component) can be found below which clearly demonstrate how the learning outcomes of the module will be assessed. (ii) An indicative schedule listing approximate times within the academic calendar when assessment is likely to feature will be provided within the Student Module Handbook.)</p>
