| <b>Summary of Module</b>   |  |                              |  |
| This module examines global security challenges and at the intersections of crime and criminal justice. The module differentiates between traditional security threats that are concerned with threats to the territory and sovereignty of the nation state, and human security which is concerned with safety and well-being individual citizens (i.e., economic-, food-, environmental-, community- and health security. This module explores a number of issues as security threats, and the process of securitization. |  |                              |  |

**Learning Outcomes: (maximum of 5 statements)**

**These should take cognisance of the SCQF level descriptors and be at the appropriate level for the module.**

At the end of this module the student will be able to:

|    |  |
|----|--|
| L1 | Critically understand that key concepts - such as 'terrorism' 'human trafficking' and security - can have a variety of meanings and are used differently by individual authors and political actors. |
| L2 | Comprehend and demonstrate how those concerned with criminal justice construct and frame their particular pictures of the world and to sell specific solutions.                                      |
| L3 | Understand that certain issues with a cross-border dimension and/or the response to them are viewed differently around the world.  |
| L4 | Critically evaluate a major international response to at least one transnational crime   |

| <b>SCQF Headings</b>                          | During completion of this module, there will be an opportunity to achieve core skills in:  |
| Knowledge and Understanding (K and U)         | <p><b>SCQF Level 10</b></p> <p>Students should be able to demonstrate knowledge and understanding of the terms security and securitization. Students should also be able to demonstrate knowledge and understanding of a range of current security threats.</p>  |
| Practice: Applied Knowledge and Understanding | <p><b>SCQF Level 10</b></p> <p>Students will gain this knowledge and understanding through engagement in lectures and seminars, events with guest speakers from reputable organisations, the module's documentary club, essential readings, time spent in independent learning, and assessments.</p>   |
| Generic Cognitive skills                      | <p><b>SCQF Level 10</b></p> <p>Students will undertake critical analysis, evaluation and/or synthesis competing ideas, concepts, and information within the subject area. They will draw on logic and reasoning skills to examine these topics within seminars and will use their visual/auditory processing skills to present their understanding of these issues in assessments.</p> |

|  |  |                      |
|--|--|----------------------|
| Communication, ICT and Numeracy Skills           | <b>SCQF Level 10</b><br>Students will demonstrate these skills via two assessments. The first assessment will demonstrate that they can clearly communicate knowledge and understanding of the key theories that underpin the module. The second assessment will allow them to demonstrate that they can apply critical thinking in answering an essay question and communicate their arguments in a clear manner. |                      |
| Autonomy, Accountability and Working with others | <b>SCQF Level 10</b><br>Students will demonstrate autonomy and accountability by being responsible for their planning, timekeeping, and meeting assessment deadlines. They will also by exercising autonomy showcase their ability to work with others through seminar debates and coursework preparation.   |                      |
| <b>Pre-requisites:</b>                           | Before undertaking this module the student should have undertaken the following:   |                      |
|  | <b>Module Code:</b>  | <b>Module Title:</b> |
|  | <b>Other:</b>  |                      |

#### Assessment: (also refer to Assessment Outcomes Grids below)

This section should make transparent what assessment categories form part of this module (stating what % contributes to the final mark).

Maximum of 3 main assessment categories can be identified (which may comprise smaller elements of assessment).

**NB: The 30% aggregate regulation (Reg. 3.9) (40% for PG) for each main category must be taken into account. When using PSMD, if all assessments are recorded in the one box, only one assessment grid will show and the 30% (40% at PG) aggregate regulation will not stand. For the aggregate regulation to stand, each component of assessment must be captured in a separate box.**

Please provide brief information about the overall approach to assessment that is taken within the module. In order to be flexible with assessment delivery, be brief, but do state assessment type (e.g. written assignment rather than "essay" / presentation, etc ) and keep the detail for the module handbook. [Click or tap here to enter text.](#)

Assessment 1 – Short Essay (750 words) 25% What is security, what is securitization?

Assessment 2 – Essay (3,000) 75% Students can choose from a range of essay questions in which they critically analyse a current security threat.

**Assessment 3 – Free Text**

(N.B. (i) **Assessment Outcomes Grids** for the module (one for each component) can be found below which clearly demonstrate how the learning outcomes of the module will be assessed.

(ii) An **indicative schedule** listing approximate times within the academic calendar when assessment is likely to feature will be provided within the Student Module Handbook.)
