<b>Code: THEO10017</b>	<b>SCQF Level: 10 (Scottish Credit and Qualifications Framework)</b>	<b>Credit Points: 20</b>	<b>ECTS: 10 (European Credit Transfer Scheme)</b>

<b>Summary of Module</b>			
<p>Scottish Christianity: Celtic Origins to Contemporary Challenges</p> <p>This module will explore the way Christianity has played a significant role in shaping the life of Scotland and in turn been shaped by this context. The course will chart the historical development of Scottish Christianity, the impact this has had on Scottish culture, and consider the interplay between socio-political realities and theological and religious development. It will also endeavour to look at these developments in relation to a wider European and global setting. The module will deliberate on the complex nature of mission and conversion amongst various early people groups; the Celtic monastic tradition of ritual and penance; the place of the church and theology in creating a sense of national identity; the role of Medieval Catholicism in shaping and consolidating the state; the transformation of society through the Scottish Reformation; and the diversification of Protestant traditions; before turning to questions of British imperialism and Scottish missionary activity; sectarianism and secularisation. This module may, if practical considerations allow, and health and safety requirements are satisfied, include a field trip to a site of historical significance in order to understand better the location of historical events and how events have left their mark on the land.</p>

The college actively encourages an environment of openness and religious tolerance, but the main function of the college is the training of ministerial candidates and the learning environment will be supportive of this.

Where students need additional support, this is provided by the college team with reference if appropriate to other UWS colleagues, they are referred to Student Support Services for further assistance. In consultation with the student, the needs of individual students are met, wherever practicable, and every effort made to ensure individual students are not disadvantaged.

(N.B. Every effort will be made by the University to accommodate any equality and diversity issues brought to the attention of the School)

#### Assessment: (also refer to Assessment Outcomes Grids below)

This section should make transparent what assessment categories form part of this module (stating what % contributes to the final mark).

Maximum of 3 main assessment categories can be identified (which may comprise smaller elements of assessment).

**NB: The 30% aggregate regulation (Reg. 3.9) (40% for PG) for each main category must be taken into account. When using PSMD, if all assessments are recorded in the one box, only one assessment grid will show and the 30% (40% at PG) aggregate regulation will not stand. For the aggregate regulation to stand, each component of assessment must be captured in a separate box.**

Please provide brief information about the overall approach to assessment that is taken within the module. In order to be flexible with assessment delivery, be brief, but do state assessment type (e.g. written assignment rather than "essay" / presentation, etc ) and keep the detail for the module handbook. Assessment 1: Essay 60%

Assessment 2: Presentation 40%
(N.B. (i) <b>Assessment Outcomes Grids</b> for the module (one for each component) can be found below which clearly demonstrate how the learning outcomes of the module will be assessed. (ii) An <b>indicative schedule</b> listing approximate times within the academic calendar when assessment is likely to feature will be provided within the Student Module Handbook.)
