

University of the West of Scotland

Module Descriptor

Session: 2024/25

Title of Module: Upper Primary Work Based Learning			
Code: UGED10005	SCQF Level: 10 (Scottish Credit and Qualifications Framework)	Credit Points: 20	ECTS: 10 (European Credit Transfer Scheme)
School:	School of Education and Social Sciences		
Module Co-ordinator:	Y White		
Summary of Module			
<p>This module is designed to extend the knowledge and experience gained from all other placement modules and periods of school experience.</p> <p>This module will help to further prepare students for their school experience placement through in-depth exploration of aspects of curriculum, pedagogy and assessment within the upper stages, as well as facilitating understanding of the schools and learning communities in which students will teach. There is significant focus on professional responsibilities and transferrable skills.</p> <p>A variety of strategies to support reduced planning, pupil assessment, recording and reporting, enhanced critical reflection, digital literacy, learner engagement, differentiation / SfL, partnership working and adult literacy will be explored and the importance of applying the school's specific policies will be emphasised. To enhance critical reflection, students will be introduced to the concepts of data literacy and data handling in order to make evidence-based professional judgements.</p> <p>Students will be directed to read and analyse a range of appropriate educational and research literature and be encouraged to engage with wider reading independently. Students will be supported to use what they have learned to critically examine their personal and professional attitudes and beliefs, to challenge, justify, evaluate and inform practice, and to ask critical questions of educational policies.</p> <p>A written assessment, considering transferable skills, will replace a pass in the practical school based assessment. Students will be encouraged to liaise directly with library and academic skills staff.</p> <ul style="list-style-type: none">• The module will support students towards meeting the GTCS Standard for Provisional Registration. Module inputs will link on-campus learning to specific professional actions. During placement, students will be expected to evidence impact of their professional knowledge, skills and attributes through focused observation and in-depth self-reflection. They will maintain a record of their professional learning and development within the Placement Observation of the Standards (POTS) and Reflection and Evaluation of the Standards (RETS) documentation. The module will support students towards meeting the GTCS Standard for Provisional Registration by working towards the following standards: Being a Teacher in Scotland (1); Professional Responsibilities (2.2); Professional Learning (3.3).• In relation to learning for sustainability, students will engage in critical reflection and use enquiring/critical approaches. They will also explore inclusion and social justice.			

- Through participating in this placement module, students will develop UWS Graduate Attributes and will demonstrate, in particular, that they are critical thinkers, emotionally intelligent, and research-minded. At Level 10, students should also demonstrate that they are autonomous and motivated.

Module Delivery Method

Face-To-Face	Blended	Fully Online	HybridC	Hybrid 0	Work-Based Learning

Campus(es) for Module Delivery

The module will **normally** be offered on the following campuses / or by Distance/Online Learning: (Provided viable student numbers permit) (tick as appropriate)

Paisley:	Ayr:	Dumfries:	Lanarkshire:	London:	Distance/Online Learning:	Other:
<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Add name

Term(s) for Module Delivery

(Provided viable student numbers permit).

Term 1	<input checked="" type="checkbox"/>	Term 2	<input checked="" type="checkbox"/>	Term 3	<input checked="" type="checkbox"/>
--------	-------------------------------------	--------	-------------------------------------	--------	-------------------------------------

Learning Outcomes: (maximum of 5 statements)

These should take cognisance of the SCQF level descriptors and be at the appropriate level for the module.

At the end of this module the student will be able to:

L1	Apply knowledge, skills and understanding in the main concepts and pedagogies underpinning effective teaching in an upper primary setting.
L2	Exercise increased autonomy and initiative by planning, implementing and assessing programmes of learning and progression within First and Second Level, across all areas of the curriculum.
L3	Demonstrate increased awareness of own role, responsibilities and effectiveness when critically reflecting (through the 4 lenses) on teaching and learning.
L4	Work with a wide variety of professionals to further progress understanding of current professional practice in teaching and learning.

L5	Recognise and critically assess the personal development and application of essential employability skills and attributes within the primary school and their transferability to other real work situations.
Employability Skills and Personal Development Planning (PDP) Skills	
SCQF Headings	During completion of this module, there will be an opportunity to achieve core skills in:
Knowledge and Understanding (K and U)	<p>SCQF Level 10</p> <p>Demonstrating knowledge of the defining features and conventions underpinning effective teaching across the primary curriculum.</p> <p>Understanding a range of core theories, concepts and principles.</p> <p>Demonstrating detailed knowledge and understanding within an identified specialism.</p>
Practice: Applied Knowledge and Understanding	<p>SCQF Level 10</p> <p>Using professional skills, techniques, practices and materials associated with effective teaching and learning across the primary curriculum.</p> <p>Using professional skills, techniques, practices and materials associated with effective teaching and learning within an identified specialism.</p> <p>Undertaking practitioner research and identifying relevant outcomes.</p> <p>Adapting routine practices within unpredictable contexts.</p>
Generic Cognitive skills	<p>SCQF Level 10</p> <p>Identifying, defining, conceptualising, analysing and finding original or creative solutions to professional issues.</p>
Communication, ICT and Numeracy Skills	<p>SCQF Level 10</p> <p>Using a wide range of skills associated with effective teaching and learning across the primary curriculum.</p> <p>Handling data in order to make evidence-based professional judgements.</p> <p>Communicating with peers, colleagues and partners on a professional level.</p> <p>Using a range of ICT applications to support and enhance teaching and learning.</p>
Autonomy, Accountability and Working with others	<p>SCQF Level 10</p> <p>Exercising autonomy and initiative in a wide range of professional activities.</p> <p>Demonstrating managerial responsibilities in relation to staff and resources.</p> <p>Working effectively under guidance of qualified practitioners to understand current professional practice and bring about change.</p> <p>Dealing with complex ethical and professional issues in accordance with current professional and/or ethical codes of practice and in accordance with the needs of schools and wider communities.</p> <p>Critically assessing personal development and application of essential employability skills and their transferability to other real work situations.</p>

Pre-requisites:	Before undertaking this module the student should have undertaken the following:	
	Module Code:	Module Title:
	Other:	All BA (Hons) Education modules This is a final opportunity to transfer programme and graduate with a BA (Hons) Education Studies.
Co-requisites	Module Code:	Module Title:

Learning and Teaching	
<p>In line with current learning and teaching principles, a 20-credit module includes 200 learning hours, normally including a minimum of 36 contact hours and maximum of 48 contact hours.</p> <p>In all modules on the BA Education programme, we take an authentic, best-practice and forward-looking approach to learning activities and assessment. There is a strong emphasis on situated learning and real professional scenarios. We are committed to interactive learning and the small number of learning activities that are purely transmission of information are normally pre-recorded. In workshops, which utilise classrooms, and other facilities as appropriate, the outdoors and the Aula VLE, main methodologies include collaborative working, problem-based learning, real-world tasks, research-based learning, enquiry-based learning, micro-teaching, student presentations, experiments, games and placement-based learning. All learning activities are aligned to relevant aspects of the professional standards. Individual, group or tutor-led reflection is required throughout. Learning activities develop 21st century skills such as communication, collaboration, digital skills, creativity and critical thinking.</p>	
<p>Learning Activities During completion of this module, the learning activities undertaken to achieve the module learning outcomes are stated below:</p>	<p>Student Learning Hours (Normally totalling 200 hours): (Note: Learning hours include both contact hours and hours spent on other learning activities)</p>
Laboratory/Practical Demonstration/Workshop	96
Personal Development Plan	40
Independent Study	64
Practice Based Learning	200
	Hours Total 00
<p>**Indicative Resources: (eg. Core text, journals, internet access)</p>	

The following materials form essential underpinning for the module content and ultimately for the learning outcomes:

Brookfield, S. (2017) *Becoming a critically reflective teacher* (2nd ed). San Francisco: Jossey Bass.

Bryce, T., Humes, W., Gillies, D. and Kennedy, A. (eds) (2018) *Scottish education* (5th ed). Edinburgh: Edinburgh University Press.

Cremin, T. and Burnet, C. (eds) (2018) *Learning to Teach in the Primary School* (4th ed). London: Routledge

(**N.B. Although reading lists should include current publications, students are advised (particularly for material marked with an asterisk*) to wait until the start of session for confirmation of the most up-to-date material)

Attendance and Engagement Requirements

In line with the [Student Attendance and Engagement Procedure](#): Students are academically engaged if they are regularly attending and participating in timetabled on-campus and online teaching sessions, asynchronous online learning activities, course-related learning resources, and complete assessments and submit these on time.

For the purposes of this module, academic engagement equates to the following:

In accordance with module and programme handbooks, any student whose attendance has fallen below the 75% minimum requirement for a module could be withdrawn from and given a re-attend decision for that module. To assure placement partners that students are appropriately prepared to undertake periods of school experience, unsatisfactory attendance across academic modules may prevent progress to placement, or result in withdrawal from the programme, as a student would be deemed not to have met the professional requirements of the programme as accredited by the GTCS.

UWS Regulations, Chapter 1, 1.64 – 1.67 also applies to periods of school experience and it should be noted that any student whose attendance has fallen below the 80% minimum requirement may be deemed not to have met the professional requirements of the programme as accredited by the GTCS and, therefore, may not be eligible for assessment on that placement. The required school experience placement would normally be completed in term 3 of the academic session.

Equality and Diversity

The University's Equality, Diversity and Human Rights Procedure can be accessed at the following link: [UWS Equality, Diversity and Human Rights Code](#).

Aligned with the overall commitment to equality and diversity stated in the Programme Specifications, the module supports equality of opportunity for students from all backgrounds and with different

learning needs. Using the VLE, learning materials will be presented electronically in formats that allow flexible access and manipulation of content (part-time and distant learning students should check with their programme leader for any queries). The module complies with University regulations and guidance on inclusive learning and teaching practice. Specialist assistive equipment, support provision and adjustment to assessment practice will be made in accordance with UWS policy and regulations.

Student teachers are encouraged to reflect on their developing understanding of aspects relating to equality and diversity and to consider how this helps them to work towards meeting the Standard for Provisional Registration (GTCS, 2021), of which demonstrating commitment to social justice and inclusion is a significant part.

Through studying this module, student teachers will:

- Respect individual difference and support learners' understanding of themselves, others and their contribution to the development and sustainability of a diverse and inclusive society
- curriculum content and its relevance to the education of every learner
- create and sustain effective working relationships with colleagues, parents/carers, families and the wider school community and partner agencies where appropriate, to support learning and wellbeing across the school

A direct focus on these aspects not only advances equality in the student environment, by promoting empathy and affiliation, but also within the school settings where student teachers undertake their school experience.

(N.B. Every effort will be made by the University to accommodate any equality and diversity issues brought to the attention of the School)

Assessment: (also refer to Assessment Outcomes Grids below)

This section should make transparent what assessment categories form part of this module (stating what % contributes to the final mark).

Maximum of 3 main assessment categories can be identified (which may comprise smaller elements of assessment).

NB: The 30% aggregate regulation (Reg. 3.9) (40% for PG) for each main category must be taken into account. When using PSMD, if all assessments are recorded in the one box, only one assessment grid will show and the 30% (40% at PG) aggregate regulation will not stand. For the aggregate regulation to stand, each component of assessment must be captured in a separate box.

Please provide brief information about the overall approach to assessment that is taken within the module. In order to be flexible with assessment delivery, be brief, but do state assessment type (e.g. written assignment rather than “essay” / presentation, etc) and keep the detail for the module handbook. [Click or tap here to enter text.](#)

Assessment 1

The module undertaken is School Experience Upper. The WBL assessment allows the module to be assessed in an alternative format, if students no longer wish to undertake placement, or if they have no further attempts. A written assessment of 3000 words is completed to critically reflect on the skills and attributes developed in the primary school and identify their transferability to other academic or real work situations.

(N.B. (i) **Assessment Outcomes Grids** for the module (one for each component) can be found below which clearly demonstrate how the learning outcomes of the module will be assessed.

(ii) An **indicative schedule** listing approximate times within the academic calendar when assessment is likely to feature will be provided within the Student Module Handbook.)

Assessment Outcome Grids (See Guidance Note)

Component 1							
Assessment Type (Footnote B.)	Learning Outcome (1)	Learning Outcome (2)	Learning Outcome (3)	Learning Outcome (4)	Learning Outcome (5)	Weighting (%) of Assessment Element	Timetabled Contact Hours
Placement (WBL)	x	x	x	x	x	100	0
