

## Module Descriptor

<b>Title</b>	<b>Work-Based Learning 2 (Specialist Portfolio)</b>		
<b>Session</b>	2025/26	<b>Status</b>	Published
<b>Code</b>	BIOL11016	<b>SCQF Level</b>	11
<b>Credit Points</b>	20	<b>ECTS (European Credit Transfer Scheme)</b>	10
<b>School</b>	<b>Health and Life Sciences</b>		
<b>Module Co-ordinator</b>	Andrew MacKenzie		

### Summary of Module

This module has been designed for students who have completed the Institute of Biomedical Science (IBMS) Specialist Portfolio. Students who are completing the Portfolio may undertake the module if portfolio completion (i.e. formal IBMS verification) is expected before the term submission deadline. This module may be taken simultaneously with, or following completion of, the Work-Based Learning 1 (Specialist Portfolio) BIOL11015 module.

The module enables students to generate academic credit towards the MSc Advanced Biomedical Science by providing evidence of the development of specialist knowledge and competencies in their chosen field.

The pass/fail assessment of the module is determined through submission of sample work from the Evidence of Achievement section of the Specialist Portfolio (e.g. case studies, presentations, laboratory reports etc), while the knowledge and skills developed in the chosen area of specialism will be summarised through generation of a brief reflective essay or report.

The module is available to take in Term 1 or Term 2.

This is an SCQF level 11 module and students will be expected to show the following graduate tributes:

Research-minded, potential leader, autonomous, analytical, critical thinker.

<b>Module Delivery Method</b>	<b>On-Campus<sup>1</sup></b> <input type="checkbox"/>	<b>Hybrid<sup>2</sup></b> <input type="checkbox"/>	<b>Online<sup>3</sup></b> <input type="checkbox"/>	<b>Work -Based Learning<sup>4</sup></b>
-------------------------------	--	---	---	---

<sup>1</sup> Where contact hours are synchronous/ live and take place fully on campus. Campus-based learning is focused on providing an interactive learning experience supported by a range of digitally-enabled asynchronous learning opportunities including learning materials, resources, and opportunities provided via the virtual learning environment. On-campus contact hours will be clearly articulated to students.

<sup>2</sup> The module includes a combination of synchronous/ live on-campus and online learning events. These will be supported by a range of digitally-enabled asynchronous learning opportunities including learning materials, resources, and opportunities provided via the virtual learning environment. On-campus and online contact hours will be clearly articulated to students.

<sup>3</sup> Where all learning is solely delivered by web-based or internet-based technologies and the participants can engage in all learning activities through these means. All required contact hours will be clearly articulated to students.

<sup>4</sup> Learning activities where the main location for the learning experience is in the workplace. All required contact hours, whether online or on campus, will be clearly articulated to students

Learning Outcomes	
<b>L1</b>	Demonstrate an advanced knowledge of at least one core pathology specialism of biomedical science.
<b>L2</b>	Demonstrate the required knowledge and competence of the range of analyses which exemplify the ability of the student to operate at the specialist level as defined by the IBMS.
<b>L3</b>	Show the ability to work in a professional manner and be able to make informed judgements relating to professional issues such as understanding and application of health and safety requirements, quality control and quality assurance.
<b>L4</b>	
<b>L5</b>	

Employability Skills and Personal Development Planning (PDP) Skills	
<b>SCQF Headings</b>	<b>During completion of this module, there will be an opportunity to achieve core skills in:</b>
<b>Knowledge and Understanding (K and U)</b>	<b>SCQF 11</b> This module will provide opportunities to allow the student to reflect critically on their subject specific knowledge in a particular specialism.
<b>Practice: Applied Knowledge and Understanding</b>	<b>SCQF 11</b> Draws on understanding of the scientific basis for laboratory tests and the disease processes under investigation. Demonstrates the application of specific skills / techniques to an advanced level or practice within a range of professional contexts.
<b>Generic Cognitive skills</b>	<b>SCQF 11</b> Work in accordance with good professional practice in partnership with other professionals, support staff, patients and service users.
<b>Communication, ICT and Numeracy Skills</b>	<b>SCQF 11</b> Demonstrate the use of ICT to enable the preparation of professional standard reports and presentations.
<b>Autonomy, Accountability and Working with Others</b>	<b>SCQF 11</b> Demonstrate willingness to show initiative and team-working when appropriate in the conduct of the portfolio. Be able to work successfully in cooperation with staff colleagues to achieve agreed goals.

Prerequisites	Module Code	Module Title
	<b>Other</b> Only available to students who have a verified IBMS Specialist Portfolio (or who will have their portfolio verified before deadline submission of the module).	
Co-requisites	Module Code	Module Title

### Learning and Teaching

In line with current learning and teaching principles, a 20-credit module includes 200 learning hours, normally including a minimum of 36 contact hours and maximum of 48 contact hours.

The module is a work-based learning module with the subject matter matched to the knowledge content of the IBMS Specialist Portfolio.

Most of the teaching and learning will have taken place in the students' workplace and through generation of the specialist portfolio content. Consequently, there is no formal academic delivery nor teaching hours ascribed to the module. The student will work with assigned academic staff or the module co-ordinator to ensure that the reflective essay meets appropriate academic standards. VLE will be used to deliver additional content and assessment in the module.

Selected evidence collected towards completion of the Specialist Portfolio, and a reflective essay or report, will be used to complete the assessment of this module. The reflective essay will be a new piece of work (i.e. a reflective study submitted for Portfolio evidence cannot be used).

The Portfolio evidence uploaded must be different from the evidence upload provided in Work-Based Learning 1. Consequently, the reflective essay or report written will be based on different themes than that generated for Work-Based Learning 1.

Note that completion of this module (alone or in combination with Work-Based Learning 1 (Specialist Portfolio) BIOL11015 of the MSc Advanced Biomedical Science programme) does NOT equate to completion of the Specialist Portfolio, which is regulated and assessed independently by the IBMS.

The module is run in accordance with the University's Regulatory Framework 1.68 (Work-Based and Placement Learning).

Learning Activities	Student Learning Hours
During completion of this module, the learning activities undertaken to achieve the module learning outcomes are stated below:	(Note: Learning hours include both contact hours and hours spent on other learning activities)
Work-based Learning	164
Independent Study	36

<b>TOTAL</b>	<b>200</b>

### Indicative Resources

**The following materials form essential underpinning for the module content and ultimately for the learning outcomes:**

There is a VLE module site to support students with the module. VLE will be used to help monitor, assess, and communicate with students

**(N.B. Although reading lists should include current publications, students are advised (particularly for material marked with an asterisk\*) to wait until the start of session for confirmation of the most up-to-date material)**

#### **Attendance and Engagement Requirements**

In line with the [Student Attendance and Engagement Procedure](#), Students are academically engaged if they are regularly attending and participating in timetabled on-campus and online teaching sessions, asynchronous online learning activities, course-related learning resources, and complete assessments and submit these on time.

**For the purposes of this module, academic engagement equates to the following:**

Completion of asynchronous activities, and submission of assessments to meet the learning outcomes of the module. Attendance at a designated workplace sufficient to complete to the IBMS specialist portfolio is a requirement for this module

#### **Equality and Diversity**

**The University's Equality, Diversity and Human Rights Procedure can be accessed at the following link: [UWS Equality, Diversity and Human Rights Code](#).**

In line with current legislation (Equality Act, 2010) and the UWS Equality, Diversity, and Human Rights Code, our modules are accessible and inclusive, with reasonable adjustment for different needs where appropriate. Module materials comply with University guidance on inclusive learning and teaching, and specialist assistive equipment, support provision and adjustment to assessment practice will be made in accordance with UWS policy and regulations. Where modules require practical and/or laboratory based learning or assessment required to meet accrediting body requirements the University will make reasonable adjustment such as adjustable height benches or assistance of a 'buddy' or helper.

**(N.B. Every effort will be made by the University to accommodate any equality and diversity issues brought to the attention of the School)**

<b>Assessment (also refer to Assessment Outcomes Grids below)</b>
<b>Assessment 1</b>
Submission of three items taken from the Evidence of Achievement section of the IBMS Specialist Portfolio (e.g. training records, case study, presentation) including annotations that demonstrates the student's understanding and signature/feedback from the training officer or laboratory manager where available), and reflective essay or report focusing on how the submitted Portfolio items helped develop the professionalism, competency, or specialist knowledge of the student.
<b>Assessment 2</b>
<b>Assessment 3</b>
(N.B. (i) Assessment Outcomes Grids for the module (one for each component) can be found below which clearly demonstrate how the learning outcomes of the module will be assessed. (ii) An indicative schedule listing approximate times within the academic calendar when assessment is likely to feature will be provided within the Student Module Handbook.)
