

Module Descriptor

Title	Child Protection Practice		
Session	2024/25	Status	
Code	NURS11003	SCQF Level	11
Credit Points	20	ECTS (European Credit Transfer Scheme)	10
School	Health and Life Sciences		
Module Co-ordinator	M Bell		

Summary of Module

This is a core module of the Post Graduate Certificate Child Protection.

This module will provide a critical examination of the complex issues which arise in planning and implementing an integrated assessment of a child's needs. Students will achieve a critical awareness of current issues facing the implementation of integrated assessment frameworks on a multi-professional basis. Key theoretical concepts relating to need, adversity, vulnerability, attachment, resilience and protective environment will be critically examined. A critical understanding of a range of principle intervention strategies will be pursued. This knowledge and understanding will then be applied in critically reflecting on the student's own practice and practice with others in undertaking assessments and in the delivery of resources and interventions.

This module will support students to develop characteristics that enable critically thinking on their role and practice in undertaking assessments of children within a cultural aware context. It will enhance their capacity to make informed judgments in relation to the complex issues which arise in planning and implementing an assessment of a child's needs and delivering appropriate interventions and resources to facilitate adequate safeguarding. The student will be work ready and have the ability to apply an innovative and transformational approach to the sustained development of collaborative work.

Module Delivery Method	On-Campus ¹	Hybrid ²	Online ³	Work -Based Learning ⁴
	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

¹ Where contact hours are synchronous/ live and take place fully on campus. Campus-based learning is focused on providing an interactive learning experience supported by a range of digitally-enabled asynchronous learning opportunities including learning materials, resources, and opportunities provided via the virtual learning environment. On-campus contact hours will be clearly articulated to students.

² The module includes a combination of synchronous/ live on-campus and online learning events. These will be supported by a range of digitally-enabled asynchronous learning opportunities including learning materials, resources, and opportunities provided via the virtual learning environment. On-campus and online contact hours will be clearly articulated to students.

³ Where all learning is solely delivered by web-based or internet-based technologies and the participants can engage in all learning activities through these means. All required contact hours will be clearly articulated to students.

⁴ Learning activities where the main location for the learning experience is in the workplace. All required contact hours, whether online or on campus, will be clearly articulated to students

Learning Outcomes	
L1	Critically evaluate the assessment process for vulnerable children.
L2	Demonstrate an understanding of the theoretical concepts which relate to need, adversity, vulnerability, attachment, resilience and protective environment.
L3	Demonstrate the ability to relate theory to the practice of assessing vulnerable children.
L4	Critically analyse intervention strategies which promote children's protection and well-being.
L5	

Employability Skills and Personal Development Planning (PDP) Skills	
SCQF Headings	During completion of this module, there will be an opportunity to achieve core skills in:
Knowledge and Understanding (K and U)	SCQF 11 The demonstration of a critical knowledge and understanding of the integrated assessment process for vulnerable children and of key theoretical concepts relating to need, adversity, vulnerability, attachment, resilience and protective environment.
Practice: Applied Knowledge and Understanding	SCQF 11 Applying knowledge and understanding of the assessment process and intervention strategies to working with children who are in need of protection and with their families.
Generic Cognitive skills	SCQF 11 Making clear professional judgments informed by current knowledge of the integrated assessment process and critical analysis protective factors and intervention strategies.
Communication, ICT and Numeracy Skills	SCQF 11 Communicating clearly and openly with children and their families, peers, and partner agencies in developing integrated assessments and intervention strategies which may impact on a child's welfare and protection.
Autonomy, Accountability and Working with Others	SCQF 11 Demonstrating critical reflection on the student's own professional practice in undertaking an integrated assessment and demonstrate an ability to make an identifiable contribution to assessment and intervention.

	NURS11002	Protecting Children

Learning and Teaching	
<p>In line with current learning and teaching principles, a 20-credit module includes 200 learning hours, normally including a minimum of 36 contact hours and maximum of 48 contact hours.</p> <p>There will be 5 on campus learning events/days for this module which is designed to augment teaching and learning resources provided on Aula and these will include lecturers, seminars and group activities.</p>	
Learning Activities	Student Learning Hours
<p>During completion of this module, the learning activities undertaken to achieve the module learning outcomes are stated below:</p>	<p>(Note: Learning hours include both contact hours and hours spent on other learning activities)</p>
Lecture / Core Content Delivery	30
Personal Development Plan	6
Asynchronous Class Activity	10
Independent Study	154

(N.B. Although reading lists should include current publications, students are advised (particularly for material marked with an asterisk*) to wait until the start of session for confirmation of the most up-to-date material)

Attendance and Engagement Requirements

In line with the [Student Attendance and Engagement Procedure](#), Students are academically engaged if they are regularly attending and participating in timetabled on-campus and online teaching sessions, asynchronous online learning activities, course-related learning resources, and complete assessments and submit these on time.

For the purposes of this module, academic engagement equates to the following:

Students are required to engage with the teaching and learning resources provided in the Virtual Learning Environment and attend at least 80% of the on campus days.

Equality and Diversity

The University's Equality, Diversity and Human Rights Procedure can be accessed at the following link: [UWS Equality, Diversity and Human Rights Code](#).

In line with current legislation (Equality Act, 2010) and the UWS Equality, Diversity, and Human Rights Code, The School of Health and Life Sciences believes that education and practitioner diversity are central to achieving quality of care.

Within the module, quality of care, inclusiveness and employability are achieved by:

- Provision of a welcoming and supportive culture that promotes accessibility and equal opportunities for students and prospective students.
- Promotion of confidence and knowledge of their rights as a student and employee.
- Promotion of respect and knowledge of client diversity, their needs, rights and associated practitioner responsibilities.

The above aims, supported by staff belief in fairness and equal opportunities, guide content, teaching and learning, assessment and evaluation.

Disability disclosure is encouraged throughout recruitment, selection and throughout the duration of this module. Emphasis is placed on confidentiality of information the benefits of disclosure and that no detriment to progress will be experienced.

To enable the module to be responsive to the demand for equality and diversity, procedures and processes have been subject to Equality Impact Screening and where appropriate Equality Impact Assessment. Evaluation by all key stakeholders through the life of the module is also central to meeting commitments. Rights Code, our modules are accessible and inclusive, with reasonable adjustment for different needs where appropriate. Module materials comply with University guidance on inclusive learning and teaching, and specialist

assistive equipment, support provision and adjustment to assessment practice will be made in accordance with UWS policy and regulations.

(N.B. Every effort will be made by the University to accommodate any equality and diversity issues brought to the attention of the School)

Assessment (also refer to Assessment Outcomes Grids below)

Assessment 1

The Formative Component will require the submission of an anonymised Case Scenario and Essay Plan (500 words). The Case Scenario will be drawn from the student's current or recent practice experience.

The Summative Component will require the submission of a reflective Case Study (4000 words) in which the student will consider the anonymised Case Scenario and critically analyse their own practice and their experience within a multi-disciplinary practice environment. This will include critical evaluation of assessment processes and the delivery of interventions in pursuing the child's protection in the context of their family or care setting and the broader practice environment. This reflective Case analysis will constitute 100% of the total marks for the module. In compliance with the University Regulatory Framework the pass mark will be 50%.

Assessment 2

Assessment 3

(N.B. (i) Assessment Outcomes Grids for the module (one for each component) can be found below which clearly demonstrate how the learning outcomes of the module will be assessed.

(ii) An indicative schedule listing approximate times within the academic calendar when assessment is likely to feature will be provided within the Student Module Handbook.)
