| School | Health and Life Sciences | | | | | |
| Module Co-ordinator | Tamsin MacBride | | | | | |
| Summary of Module | 1 | | | | | |

This module is a significant component of the MSc programme and encourages the student to pursue under supervision a sustained programme of individual autonomous work. The student has a choice of either undertaking a Research Protocol or Research Project, Quality Improvement Protocol or Quality Improvement Project.

Full details and timelines for the protocol and project options are detailed in the module handbook.

The student will be offered a minimum of eight hours of individual academic supervision for their chosen Dissertation.

¹ Where contact hours are synchronous/ live and take place fully on campus. Campus-based learning is focused on providing an interactive learning experience supported by a range of digitally-enabled asynchronous learning opportunities including learning materials, resources, and opportunities provided via the virtual learning environment. On-campus contact hours will be clearly articulated to students.

² The module includes a combination of synchronous/ live on-campus and online learning events. These will be supported by a range of digitally-enabled asynchronous learning opportunities including learning materials, resources, and opportunities provided via the virtual learning environment. On-campus and online contact hours will be clearly articulated to students.

³ Where all learning is solely delivered by web-based or internet-based technologies and the participants can engage in all learning activities through these means. All required contact hours will be clearly articulated to students.

⁴ Learning activities where the main location for the learning experience is in the workplace. All required contact hours, whether online or on campus, will be clearly articulated to students

| Lear | ning Outcomes |
|------|--|
| L1 | Carry out a substantial dissertation which has an appropriate conceptual and methodological perspective or professional justification. |
| L2 | Undertake a comprehensive review of the empirical literature which identifies the relevant theoretical and analytical perspectives and deals critically with the arguments raised. |
| L3 | Synthesise theoretical and professional insights derived from the literature and other sources. |
| L4 | Justify the use of appropriate methodologies and reflect critically upon learning resulting from the enquiry identifying strengths and limitations within the field generally. |
| L5 | Display sufficient breadth of view to be able to relate own work in the programme of enquiry, meaningfully, to the wider professional, social, and intellectual context in which it is situated. |

| Employability Skill | s and Personal Development Planning (PDP) Skills | | | | | |
|--------------------------------|---|--|--|--|--|--|
| SCQF Headings | During completion of this module, there will be an opportunity to achieve core skills in: | | | | | |
| Knowledge and Understanding (K | SCQF 11 | | | | | |
| and U) | Demonstrates a critical understanding of contemporary theory, principles and concepts in relation to systematic review of the literature and/or research design. | | | | | |
| Practice: Applied | SCQF 11 | | | | | |
| Knowledge and Understanding | Relates key components of research design or improvement methodologies methods to one's own domain. | | | | | |
| | Demonstrates creativity in the application of theoretical concepts to enhance an evidence-base for work or practice within the health and social care contexts. | | | | | |
| Generic | SCQF 11 | | | | | |
| Cognitive skills | Critically reflects upon and appraises complex situations to make informed judgements that underpin the effective design of research projects or improvement methodologies to enhance organisational decisions. | | | | | |
| | Demonstrates creativity in the application of theoretical concepts to enhance an evidence-base for work or practice within the health and social care contexts. | | | | | |
| Communication, | SCQF 11 | | | | | |
| ICT and Numeracy Skills | Selects and applies appropriate methods and tools to facilitate appropriate quantitative or qualitative data collection and analysis or improvement methodologies. | | | | | |
| | Designs the presentation of information for dissemination across appropriate levels and areas of the professional audience and organisational contexts. | | | | | |

| | Synthesises work into a well-designed dissertation document. |
|---|--|
| Autonomy, Accountability and Working with Others | SCQF 11 Demonstrates leadership in relation to generating a vision for research or improvement in the work setting, engagement of self and others in contributing to research, and the promotion of professional excellence and effectiveness in the health and social care context. Work in ways that are reflective, critical and analytical to facilitate and |
| | enhance research and effective clinical developments. |

Learning and Teaching

In line with current learning and teaching principles, a 20-credit module includes 200 learning hours, normally including a minimum of 36 contact hours and maximum of 48 contact hours.

The Virtual Learning Environment (VLE) will be used to deliver learning and teaching. Teaching methods will be used to deliver information on research design, aspects of data processing and statistical analysis relevant for the degree programme. Additional Information, resources and directed learning will be provided on the VLE.

| Learning Activities | Student Learning |
|--|--|
| During completion of this module, the learning activities undertaken to achieve the module learning outcomes are stated below: | Hours (Note: Learning hours include both contact hours and hours spent on other learning activities) |
| Lecture / Core Content Delivery | 6 |
| Laboratory / Practical Demonstration / Workshop | 18 |
| Personal Development Plan | 8 |
| Independent Study | 560 |
| Tutorial / Synchronous Support Activity | 8 |
| n/a | |
| TOTAL | 600 |

Indicative Resources

The following materials form essential underpinning for the module content and ultimately for the learning outcomes:

There is no essential reading for this module. Below are some useful sources most of which students can access via the university's E-licencing and which are digitally linked via the module core material on the VLE.

Aveyard, H. (2023) Doing a literature review in health and social care. 5th edn. Maidenhead: Open University Press

Heaslip, V. (2019). Research and evidence-based practice: for nursing, health and social care students. Banbury: Lantern

LoBiondo-Wood, G., Haber, J., and Titler, M.G. (2018). Evidence based practice for nursing and healthcare quality improvement. London: Mosby

(N.B. Although reading lists should include current publications, students are advised (particularly for material marked with an asterisk*) to wait until the start of session for confirmation of the most up-to-date material)

Attendance and Engagement Requirements

In line with the <u>Student Attendance and Engagement Procedure</u>, Students are academically engaged if they are regularly attending and participating in timetabled oncampus and online teaching sessions, asynchronous online learning activities, course-related learning resources, and complete assessments and submit these on time.

For the purposes of this module, academic engagement equates to the following:

Students actively undertaking dissertation supervision with a dedicated supervisor(s) and also partaking in synchronous dissertation online sessions. Engagement is further demonstrated via the submission of engagement and supervision reports. This is further detailed within the module handbook and VLE.

Equality and Diversity

The University's Equality, Diversity and Human Rights Procedure can be accessed at the following link: UWS Equality, Diversity and Human Rights Code.

This module is appropriate for all students. In line with current legislation (Equality Act, 2010) and the UWS Equality, Diversity, and Human Rights Code, our modules are accessible and inclusive, with reasonable adjustment for different needs where appropriate. To promote inclusive practice, procedures and processes have been subject to Equality Impact Assessment where appropriate. In line with the Equality Act 2010 and UWS Refreshed Equality Outcomes 2021 - 2025 Public Sector Equality Duty Mainstreaming and Equality Outcomes Report 2021 (uws.ac.uk) (pp. 37 - 39) the School of Health and Life Sciences encourages the disclosure of support requirements, including disability, at the recruitment stage and throughout the duration of the module. Emphasis is placed on confidentiality of information, the benefits of disclosure, and that no detriment to progress will be experienced. The School will endeavour to make reasonable adjustments to teaching and learning approaches and arrangements for assessment, and (when applicable) periods of placement, where appropriate.

(N.B. Every effort will be made by the University to accommodate any equality and diversity issues brought to the attention of the School)
