### Summary of Module

This is the 6th and last module of the Pg. Dip In CBT

This module rounds off the Pg. Dip consolidating evidence-based practice, ethics, codes of conduct and safe practice, it also prepares students for BABCP accreditation and professional responsibility as a CBT therapist.

The module develops a firm foundation for the role of scientist-practitioner, instilling principles of healthy, ethical practice. It will continue to deepen the student's ability to mindfully utilise and evaluate treatment models based on knowledge of the psychological processes underlying anxiety and depression as manifested idiosyncratically through varying values and culture. Skills workshops in this module focus on further developing critical thinking, reading and evaluation skills, identifying and managing ethical dilemmas and Identifying areas for future growth.

The development of research and critical thinking skills is embedded in this module. Further information on the specific skills and topics covered will be found in the module handbook and on the virtual learning site (Aula).

This module helps students develop their critical thinking skills and scientific analysis.

<sup>1</sup> Where contact hours are synchronous/ live and take place fully on campus. Campus-based learning is focused on providing an interactive learning experience supported by a range of digitally-enabled asynchronous learning opportunities including learning materials, resources, and opportunities provided via the virtual learning environment. On-campus contact hours will be clearly articulated to students.

<sup>2</sup> The module includes a combination of synchronous/ live on-campus and online learning events. These will be supported by a range of digitally-enabled asynchronous learning opportunities including learning materials, resources, and opportunities provided via the virtual learning environment. On-campus and online contact hours will be clearly articulated to students.

<sup>3</sup> Where all learning is solely delivered by web-based or internet-based technologies and the participants can engage in all learning activities through these means. All required contact hours will be clearly articulated to students.

<sup>4</sup> Learning activities where the main location for the learning experience is in the workplace. All required contact hours, whether online or on campus, will be clearly articulated to students
