<b>Summary of Module</b>			
<p>This is the second module in the Pg Dip / Pg Cert in Cognitive Behavioural Therapy.</p> <p>The aims of this module will be to introduce the students to more focused and specific CBT concepts and skills. The use of Case Conceptualisations as a basis for treatment planning will be explored.</p> <p>Skills workshops in this module will focus upon specific CBT techniques and skills aimed at eliciting and working with cognitions and behaviours. The roles of safety and avoidance behaviours will be critically appraised. Specific emphasis will be given to the processes of Guided Discovery and the Socratic Method as well as key behavioural interventions including the planning, conduct and reviewing of behavioural experiments, the use of exposure work and relaxation therapy. Priority will be given to a critical analysis of Guided Self-Help procedures and Behavioural Activation as key clinical interventions.</p> <p>The development of research and critical thinking skills is embedded in this module. Further information on the specific skills and topics covered will be found in the module handbook and on the virtual learning site (Aula).</p> <p>The above skills acquisition, contributes to the development of the UWS Graduate Attributes</p>

<sup>1</sup> Where contact hours are synchronous/ live and take place fully on campus. Campus-based learning is focused on providing an interactive learning experience supported by a range of digitally-enabled asynchronous learning opportunities including learning materials, resources, and opportunities provided via the virtual learning environment. On-campus contact hours will be clearly articulated to students.

<sup>2</sup> The module includes a combination of synchronous/ live on-campus and online learning events. These will be supported by a range of digitally-enabled asynchronous learning opportunities including learning materials, resources, and opportunities provided via the virtual learning environment. On-campus and online contact hours will be clearly articulated to students.

<sup>3</sup> Where all learning is solely delivered by web-based or internet-based technologies and the participants can engage in all learning activities through these means. All required contact hours will be clearly articulated to students.

<sup>4</sup> Learning activities where the main location for the learning experience is in the workplace. All required contact hours, whether online or on campus, will be clearly articulated to students
