Learning and Teaching	
<p>In line with current learning and teaching principles, a 20-credit module includes 200 learning hours, normally including a minimum of 36 contact hours and maximum of 48 contact hours.</p> <p>This module is delivered as a fully distance learning utilising a Virtual Learning Environment (VLE)</p> <p>Distance learning students: In this mode of delivery, students are learning fully online and are supported by the VLE. On-line students will receive core module resources; individual and group tutorial support and directed learning via the VLE system. This will be aided by asynchronous/synchronous online discussion boards; virtual learning activities; directed wider reading including access to electronic library and e-books.</p> <p>All students will be expected to work through the on-line module materials independently via the VLE. This will assist in enhancing skills of communication, presentation, problem-solving and critical reflection.</p> <p>Module content reflects societal diversity and a rights-based approach to practice. To promote accessibility, anticipatory adjustments have been made to teaching and learning strategies e.g. availability of electronic copies of lecture materials. Further reasonable adjustments can be made for students who have been assessed as requiring specific adjustments e.g., specialised equipment for studying e.g. specialised software.</p>

### **Assessment (also refer to Assessment Outcomes Grids below)**

#### **Assessment 1**

Early formative assessment will be incorporated into the module to facilitate the process of student development and academic literacy skills, providing both feedback and feed forward to enable this process. This will be a 600 word discussion forum based on PACE matrix.

#### **Assessment 2**

The summative assessment will be 2 parts.

Part A of the summative assessment is based on the students participation in 2 x 600 word Asynchronous Discussions hosted on the Virtual Learning Environment. Discussions will be marked using a methodology developed within the School of Health and Life Sciences, based on a model for participation in asynchronous discussions developed by Sabin, H., Larson, S. & Nellen, T. (2000) The PACE Model: for On-line Teaching and Student Support, Learning

This will contribute 50% of the final mark awarded to the student.

Each Assessment component- students must achieve a minimum PASS mark of 50% for each component to comply with NMC Framework, with a total overall assessments mark of 50% as per the regulations.

### Assessment 3

Part B of the summative assessment is a 3,250 word organisation-focused project paper presented in the form of a written report, equivalent to 50% of the final mark.

Each Assessment component- students must achieve a minimum PASS mark of 50% for each component to comply with NMC Framework with a total overall assessment mark of 50% as per the regulation.

(N.B. (i) Assessment Outcomes Grids for the module (one for each component) can be found below which clearly demonstrate how the learning outcomes of the module will be assessed.

(ii) An indicative schedule listing approximate times within the academic calendar when assessment is likely to feature will be provided within the Student Module Handbook.)
