

Module Descriptor

Title	Facilitation of Learning in Advanced Practice		
Session	2025/26	Status	Published
Code	NURS11174	SCQF Level	11
Credit Points	10	ECTS (European Credit Transfer Scheme)	5
School	Health and Life Sciences		
Module Co-ordinator	Jonathan Johnston		
Summary of Module			
<p>Facilitation of Learning is a key competency for advanced practitioners (Scottish Government, 2021). This module is designed to prepare students for the facilitation of lifelong learning and teaching within advanced practice, exploring various learning approaches, assessment strategies and supervision methods to promote effective learning experiences in diverse settings. The module will explore themes including theories of adult learning, approaches to teaching and learning in advanced practice, supervision, coaching and mentorship, cultural competence and continuous professional development.</p> <p>This module embraces the concept of Mastersness described in the QAA Scotland (2013) 'Facets of Mastersness' toolkit. Students are encouraged to reflect on learning achievements, experiences, and the implications these have for their future development. Further, the module embraces the three overarching UWS Graduate Attributes that state that our students on graduation will be Universal, Work-ready and Successful. This includes being critical, analytical, and inquiring with cultural awareness. Students will be research minded, digitally literate, motivated, creative, and resilient, leading to success and enhanced work-related opportunities.</p>			

Module Delivery Method	On-Campus¹ <input type="checkbox"/>	Hybrid² <input checked="" type="checkbox"/>	Online³ <input type="checkbox"/>	Work -Based Learning⁴ <input type="checkbox"/>
Campuses for Module Delivery	<input type="checkbox"/> Ayr <input type="checkbox"/> Dumfries	<input checked="" type="checkbox"/> Lanarkshire <input type="checkbox"/> London	<input type="checkbox"/> Online / Distance Learning	

¹ Where contact hours are synchronous/ live and take place fully on campus. Campus-based learning is focused on providing an interactive learning experience supported by a range of digitally-enabled asynchronous learning opportunities including learning materials, resources, and opportunities provided via the virtual learning environment. On-campus contact hours will be clearly articulated to students.

² The module includes a combination of synchronous/ live on-campus and online learning events. These will be supported by a range of digitally-enabled asynchronous learning opportunities including learning materials, resources, and opportunities provided via the virtual learning environment. On-campus and online contact hours will be clearly articulated to students.

³ Where all learning is solely delivered by web-based or internet-based technologies and the participants can engage in all learning activities through these means. All required contact hours will be clearly articulated to students.

⁴ Learning activities where the main location for the learning experience is in the workplace. All required contact hours, whether online or on campus, will be clearly articulated to students

Learning Outcomes	
L1	Critically evaluate theories and models of adult learning in the context of advanced practice.
L2	Design, deliver, and critically evaluate educational interventions for diverse learners within the advanced practitioner role, with consideration of ethics, governance, and cultural competence.
L3	Critically analyse the role of reflective practice, supervision, coaching and feedback in enhancing the learning experience for advanced practitioners and other learners in a diverse and dynamic, healthcare landscape.
L4	
L5	

Employability Skills and Personal Development Planning (PDP) Skills	
SCQF Headings	During completion of this module, there will be an opportunity to achieve core skills in:
Knowledge and Understanding (K and U)	SCQF 11 Development of a critical understanding of adult learning theory and specifically how it can be applied to advanced practice. .
Practice: Applied Knowledge and Understanding	SCQF 11 Design and delivery of teaching materials relevant to advanced practice. Opportunity to critically explore innovation of new, original approaches to facilitation of learning. Underpinned by collaborative planning to develop understanding of different professional contexts
Generic Cognitive skills	SCQF 11 Critical analysis and justification of CPD project proposal and example content, allows opportunity for synthesis of new knowledge for direct use in professional practice.
Communication, ICT and Numeracy Skills	SCQF 11 Design and development of CPD content for assessment. Critical understanding of technology application in healthcare education. Implementation of technology into project, use of university learning platforms and online library.
Autonomy, Accountability	SCQF 11 Critical understanding of role modelling, supervision, coaching. Governance and moderation of education materials. Governance and

and Working with Others	ethics of creating education materials for others. Critical examination of the professional context that the learning sits in.

Co-requisites	Module Code	Module Title

Learning and Teaching	
<p>In line with current learning and teaching principles, a 20-credit module includes 200 learning hours, normally including a minimum of 36 contact hours and maximum of 48 contact hours.</p> <p>The module will utilise both online and face-to-face teaching in a contemporary, hybrid format to support students in developing the knowledge and skills required to meet the learning outcomes. Learning and teaching strategies reflect the UWS (2023) Curriculum Framework, contact hours are identified by Laboratory/Practical/Demonstration/Workshop and Tutorial/Synchronous Support Activity hours detailed below. Students will receive a timetable that clearly outlines online and on-campus attendance and engagement requirements.</p> <p>On-campus and synchronous online sessions will provide active and collaborative activities which encourage student led learning. Synchronous online sessions will capitalise on the latest digital technology with interactive workshops and tutorials. On-campus sessions will be delivered at the UWS Lanarkshire Campus, which offers state of the art technology within the Clinical Skills facilities, utilising simulation and scenario-based approaches to enhance authentic student learning experiences.</p> <p>The Asynchronous class activity detailed below, provides an opportunity for students to prepare for and consolidate the synchronous online and on-campus laboratories, workshops and tutorials. Structured and directed asynchronous activities are provided within our virtual learning platform, ensuring preparation requirements are clearly articulated whilst allowing flexibility to support student engagement and recognising the requirements of employment.</p> <p>Work- based learning is a key component of this module and will be undertaken within the student's own current clinical role. Learning will be supervised and supported by an experienced clinical supervisor identified by the student at the point of admission. WBL activities relevant to the module learning outcomes will be signposted to students, supporting development of knowledge, understanding and skills development and allowing contextualisation and consolidation of university-based learning to further underpin module learning outcomes.</p>	
Learning Activities	Student Learning Hours
During completion of this module, the learning activities undertaken to achieve the module learning outcomes are stated below:	(Note: Learning hours include both contact hours and hours spent on other learning activities)
Work-based Learning	17
Laboratory / Practical Demonstration / Workshop	15
Asynchronous Class Activity	25
Independent Study	42
Tutorial / Synchronous Support Activity	1

TOTAL	100

Indicative Resources

The following materials form essential underpinning for the module content and ultimately for the learning outcomes:

Brookfield, S. D. (2017). Becoming a critically reflective teacher. John Wiley & Sons.

Melrose, S., Park, C., & Perry, B. (2021). Creative clinical teaching in the health professions. Athabasca University Press.

Zapletal, A. L., Baird, J. M., Oss, T. V., Hoppe, M. M., Prast, J. E., & Herge, E. A. (2022). Clinical simulation for healthcare professionals. Slack.

(N.B. Although reading lists should include current publications, students are advised (particularly for material marked with an asterisk*) to wait until the start of session for confirmation of the most up-to-date material)

Attendance and Engagement Requirements

In line with the [Student Attendance and Engagement Procedure](#), Students are academically engaged if they are regularly attending and participating in timetabled on-campus and online teaching sessions, asynchronous online learning activities, course-related learning resources, and complete assessments and submit these on time.

For the purposes of this module, academic engagement equates to the following:

The university is committed to providing a supportive learning environment that actively facilitates student success. In this module, there is a high degree of student-led flexibility. You are academically engaged if you are regularly engaged with scheduled live sessions on-campus and online, including engaging with online learning activities in your own time, course-related learning resources, and with timely completion and submission of assessments.

Whilst we understand that there may be times when conflicting priorities make participation challenging, for you to gain the most from this module it is recommended that you participate in all scheduled live classes and complete your self-directed learning activities in a timely manner.

It may be difficult to pass the assessment associated with this module if you are not regularly engaging with the module work and live classes. We may reach out to check how things are going and offer support if we observe that you have not been attending sessions or completing online activities

Equality and Diversity

The University's Equality, Diversity and Human Rights Procedure can be accessed at the following link: [UWS Equality, Diversity and Human Rights Code](#).

This module is appropriate for all students. In line with current legislation (Equality Act, 2010) and the UWS Equality, Diversity, and Human Rights Code, our modules are accessible and inclusive, with reasonable adjustment for different needs where appropriate. To promote inclusive practice, procedures and processes have been subject to Equality Impact Assessment where appropriate. In line with the Equality Act 2010 and UWS Refreshed Equality Outcomes 2021 - 2025 Public Sector Equality Duty Mainstreaming and Equality Outcomes Report 2021 (uws.ac.uk) (pp. 37 - 39) the School of Health and Life Sciences encourages the disclosure of support requirements, including disability, at the recruitment stage and throughout the duration of the module. Emphasis is placed on confidentiality

of information, the benefits of disclosure, and that no detriment to progress will be experienced. The School will endeavour to make reasonable adjustments to teaching and learning approaches and arrangements for assessment, and (when applicable) periods of placement, where appropriate.

All learning materials, activities and scenarios will utilise a diverse range of patients to reflect the diversity of students.

(N.B. Every effort will be made by the University to accommodate any equality and diversity issues brought to the attention of the School)
