

Module Descriptor

Title	Maintaining the Dentition		
Session	2025/26	Status	Published
Code	NURS07053	SCQF Level	7
Credit Points	20	ECTS (European Credit Transfer Scheme)	10
School	Health and Life Sciences		
Module Co-ordinator	Julie Orr		
Summary of Module			
<p>This module will develop knowledge and understanding to support the student dental nurse to engage in the prevention of caries and periodontal disease and assist the practitioner during the restoration of the dentition using non-advanced techniques.</p> <p>The student will be required to have knowledge and understanding of the medicaments and techniques used to prevent dental caries and periodontal disease. This will include topical fluoride, effective use of oral hygiene aids and fissure sealants. Students will utilise evidence-based practice as they identify factors which influence an individual’s health-related behaviours and use this knowledge to promote oral health. The student will examine the aetiology, pathology, progression and presentation of common oral diseases and the current concepts of oral and general health and its determinants. An appreciation of the risk factors which influence an individual’s oral health will also be examined.</p> <p>The student is required to develop knowledge and application of skills in relation to a range of materials used to restore the dentition. This will include the equipment, medicaments and techniques used in conservative dentistry. The student nurse will manage and prepare the patient for dental procedures and manage the aftercare.</p>			

Module Delivery Method	On-Campus¹ <input type="checkbox"/>	Hybrid² <input checked="" type="checkbox"/>	Online³ <input type="checkbox"/>	Work -Based Learning⁴ <input type="checkbox"/>
Campuses for Module Delivery	<input type="checkbox"/> Ayr	<input type="checkbox"/> Lanarkshire	<input type="checkbox"/> Online / Distance Learning	

¹ Where contact hours are synchronous/ live and take place fully on campus. Campus-based learning is focused on providing an interactive learning experience supported by a range of digitally-enabled asynchronous learning opportunities including learning materials, resources, and opportunities provided via the virtual learning environment. On-campus contact hours will be clearly articulated to students.

² The module includes a combination of synchronous/ live on-campus and online learning events. These will be supported by a range of digitally-enabled asynchronous learning opportunities including learning materials, resources, and opportunities provided via the virtual learning environment. On-campus and online contact hours will be clearly articulated to students.

³ Where all learning is solely delivered by web-based or internet-based technologies and the participants can engage in all learning activities through these means. All required contact hours will be clearly articulated to students.

⁴ Learning activities where the main location for the learning experience is in the workplace. All required contact hours, whether online or on campus, will be clearly articulated to students

Learning Outcomes	
L1	Appraise the medicaments and techniques used to prevent dental caries and periodontal disease.
L2	Identify equipment, instruments and medicaments for conservative dentistry and the prevention of dental caries and periodontal disease.
L3	Appraise the role of the dental nurses as they engage in the prevention of caries, periodontal and assisting in the restoration of the dentition.
L4	Examine the aetiology, pathology, progression and presentation of common oral diseases
L5	Examine factors which influence an individual's health-related behaviours and use this knowledge to promote positive oral health.

Employability Skills and Personal Development Planning (PDP) Skills	
SCQF Headings	During completion of this module, there will be an opportunity to achieve core skills in:
Knowledge and Understanding (K and U)	SCQF 7 An overall appreciation of the body of knowledge relating to the medicaments and techniques used to prevent dental caries and periodontal disease. An overall appreciation of the body of knowledge relating to the range of materials used to restore the dentition, and the equipment, medicaments and techniques used in conservative dentistry.
Practice: Applied Knowledge and Understanding	SCQF 7 Apply knowledge, and understanding to identify medicaments, equipment, materials for conservation of the dentition and periodontium in routine and non-routine contexts.
Generic Cognitive skills	SCQF 7 Knowledge of the aetiology, pathology, progression and presentation of common oral diseases.
Communication, ICT and Numeracy Skills	SCQF 7 Use a wide range of communication forms to provide patient care before and after treatment.
Autonomy, Accountability and Working with Others	SCQF 7 Exercise some initiative and independence in identifying equipment, instruments and medicaments for the conservation of the dentition and periodontium.

	Exercise some initiative and independence drawing on knowledge to support the patient to prevent dental caries and maintain a healthy periodontium.

Learning and Teaching	
<p>In line with current learning and teaching principles, a 20-credit module includes 200 learning hours, normally including a minimum of 36 contact hours and maximum of 48 contact hours.</p> <p>A variety of learning and teaching strategies will be utilised including lectures, workshops, tutorials, enquiry based learning and simulated practice. Support and guidance will be available from the module team. Additional support including reasonable adjustments for teaching and learning can be individualised for those students with enabling support needs. The learning and teaching strategies on this module contribute to the development of UWS graduate attributes as outlined in “I am UWS” see link: https://www.uws.ac.uk/current-students/your-graduate-attributes/</p>	
Learning Activities	Student Learning Hours
During completion of this module, the learning activities undertaken to achieve the module learning outcomes are stated below:	(Note: Learning hours include both contact hours and hours spent on other learning activities)
Lecture / Core Content Delivery	12
Tutorial / Synchronous Support Activity	12
Laboratory / Practical Demonstration / Workshop	24
Independent Study	152
n/a	
n/a	
TOTAL	200

Indicative Resources
<p>The following materials form essential underpinning for the module content and ultimately for the learning outcomes:</p> <p>Chapman, A. and Felton, S. (2021) Basic Guide to Oral Health Promotion (a basic guide dentistry series) 3rd ed. Oxford: John Willey and Sons</p> <p>Hollins, C. (2019) Levinson’s Textbook for Dental Nurses. 12th ed. Oxford: Wiley Blackwell</p> <p>Wilson, C (2019) The language of kindness: a nurse's story. London: Chatto & Windu</p>
<p>(N.B. Although reading lists should include current publications, students are advised (particularly for material marked with an asterisk*) to wait until the start of session for confirmation of the most up-to-date material)</p>

Attendance and Engagement Requirements

In line with the [Student Attendance and Engagement Procedure](#), Students are academically engaged if they are regularly attending and participating in timetabled on-campus and online teaching sessions, asynchronous online learning activities, course-related learning resources, and complete assessments and submit these on time.

For the purposes of this module, academic engagement equates to the following:

Where a module has Professional, Statutory or Regulatory Body requirements these will be listed here: The University is committed to providing a supportive learning environment that actively facilitates student success. In this module, there is a high degree of student-led flexibility. You are academically engaged if you are regularly engaged with scheduled live sessions on-campus and online, including engaging with online learning activities in your own time, course-related learning resources, and with timely completion and submission of assessments.

Whilst we understand that there may be times when conflicting priorities make participation challenging, for you to gain the most from this module it is recommended that you participate in all scheduled live classes and complete your self-directed learning activities in a timely manner.

It may be difficult to pass the assessment associated with this module if you are not regularly engaging with the module work and live classes. We may reach out to check how things are going and offer support if we observe that you have not been attending sessions or completing online activities.

Equality and Diversity

The University's Equality, Diversity and Human Rights Procedure can be accessed at the following link: [UWS Equality, Diversity and Human Rights Code](#).

This module is appropriate for all students. To promote inclusive practice, procedures and processes have been subject to Equality Impact Assessment where appropriate. In line with the Equality Act 2010 and UWS Refreshed Equality Outcomes 2021-2025 Public Sector Equality Duty Mainstreaming and Equality Outcomes Report 2021 (uws.ac.uk) (pp. 37-39) the School of Health and Life Sciences encourages the disclosure of support requirements, including disability, at the recruitment stage and throughout the duration of the module. Emphasis is placed on confidentiality of information, the benefits of disclosure and that no detriment to progress will be experienced. The School will endeavour to make reasonable adjustments to teaching and learning approaches and arrangements for assessment, and (when applicable) periods of placement, where a student has disclosed specific requirements.

(N.B. Every effort will be made by the University to accommodate any equality and diversity issues brought to the attention of the School)
