

# **Module Descriptor**

Title	Pathophysiology					
Session	2025/26	Status	Published			
Code	NURS08066	SCQF Level	8			
Credit Points	20	ECTS (European Credit Transfer Scheme)	10			
School	Health and Life Sciences					
Module Co-ordinator	Kirsty Ferrie					

# **Summary of Module**

This theory-based module aims to develop the student's knowledge of pathophysiology and ill health. There will be a focus on the applied pathophysiology and pharmacology to develop an understanding of clinical management of the perioperative patient. The theoretical knowledge gained in this module can be used in partnership with clinical skills gained in parallel practice modules, to underpin clinical assessment and decision making with a solid evidence base.

Students will explore theory topics such as pathophysiology, disease and trauma processes, patient deterioration, shock and sepsis, relating these topics to clinical practice to consolidate learning.

The graduate attributes gained in this module include becoming resilient, research-minded and inquiring.

Module Delivery Method	On-Campus¹	Hybrid <sup>2</sup>	Online³ ⊠		Work -Based Learning⁴
Campuses for Module Delivery	Ayr Dumfries	Lanarks London Paisley	Lea		nline / Distance ning Other (specify)

<sup>&</sup>lt;sup>1</sup> Where contact hours are synchronous/ live and take place fully on campus. Campus-based learning is focused on providing an interactive learning experience supported by a range of digitally-enabled asynchronous learning opportunities including learning materials, resources, and opportunities provided via the virtual learning environment. On-campus contact hours will be clearly articulated to students.

<sup>&</sup>lt;sup>2</sup> The module includes a combination of synchronous/ live on-campus and online learning events. These will be supported by a range of digitally-enabled asynchronous learning opportunities including learning materials, resources, and opportunities provided via the virtual learning environment. On-campus and online contact hours will be clearly articulated to students.

<sup>&</sup>lt;sup>3</sup> Where all learning is solely delivered by web-based or internet-based technologies and the participants can engage in all learning activities through these means. All required contact hours will be clearly articulated to students.

<sup>&</sup>lt;sup>4</sup> Learning activities where the main location for the learning experience is in the workplace. All required contact hours, whether online or on campus, will be clearly articulated to students

Term				

Lear	ning Outcomes
L1	Recall and expand on knowledge of normal physiology.
L2	Demonstrate an understanding of pathophysiological processes.
L3	Apply understanding of pathophysiology to the assessment and management of patients in the perioperative setting.
L4	Evaluate the pharmacological and non-pharmacological interventions used to treat disease.
L5	

Employability Skill	s and Personal Development Planning (PDP) Skills					
SCQF Headings	During completion of this module, there will be an opportunity to achieve core skills in:					
Knowledge and	SCQF 8					
Understanding (K and U)	Develop knowledge of pathophysiology, disease and ill health.					
u <b>u</b>	Gain knowledge of a range of the pharmacological and non- pharmacological approaches to managing disease and ill health.					
	Further enhance knowledge of the values-based, person-centred care required for people experiencing ill health.					
Practice: Applied	SCQF 8					
Knowledge and Understanding	Application of pharmacology to safe medicines management.					
Ondorstanding	Application of knowledge and understanding to clinical care of the perioperative patient.					
	Utilising a range of interpersonal skills.					
Generic	SCQF 8					
Cognitive skills	Interpretation of clinical data.					
	Utilising a range of approaches to formulate and critically evaluate evidence-based responses to common pathophysiological processes.					
Communication,	SCQF 8					
ICT and Numeracy Skills	Utilising a range of verbal, non-verbal and written communication skills.					
	Demonstrating effective listening skills, empathy and respect for service users and colleagues.					
	Utilising and evaluating numerical and graphical data in the context of clinical assessment, investigations, and management.					
	Comprehending the information and ideas discussed within the module in a logical form.					
	Utilise a range of digital technologies and systems to achieve your study work, and life goals.					

# Autonomy, Accountability and Working with Others Working within the professional, ethical and legal frameworks underpinning operating department practice. Demonstrating initiative in the application of person-centred assessment and care. Developing autonomous practice in the role of the Operating Department Practitioner while acknowledging limitations of knowledge and competence.

## **Learning and Teaching**

In line with current learning and teaching principles, a 20-credit module includes 200 learning hours, normally including a minimum of 36 contact hours and maximum of 48 contact hours.

Students will practice in a variety of perioperative contexts and will be supported by a Practice Educator. Students will gain knowledge from all members of the interprofessional team as well as service users. Student's learning will also be supported with online materials and academic support sessions.

Learning Activities  During completion of this module, the learning activities undertaken	Student Learning Hours	
to achieve the module learning outcomes are stated below:	(Note: Learning hours include both contact hours and hours spent on other learning activities)	
Tutorial / Synchronous Support Activity	10	
Asynchronous Class Activity	20	
Personal Development Plan	6	
Independent Study	164	
n/a

Peat, I. (2021) Fundamentals of Applied Pathophysiology: An Essential Guide for Nursing and Healthcare Students. 4th edition. John Wiley & Sons. Available at: https://uws-uk.userservices.exlibrisgroup.com/view/action/uresolver.do?operation=resolveService&pack age\_service\_id=17086149550003931&institutionId=3931&customerId=3930 (Accessed: 3 April 2024).

Pears, R. and Shields, G. (2019) Cite them right: The essential referencing guide. 11th edn. London, England: Red Globe Press. Available at: https://uws-uk.userservices.exlibrisgroup.com/view/action/uresolver.do?operation=resolveService&pack age\_service\_id=17086149770003931&institutionId=3931&customerId=3930 (Accessed: 3 April 2024).

Peat, I. and Hill, B. (2021) Fundamentals of Pharmacology for Nursing and Healthcare Students. John Wiley & Sons.

(N.B. Although reading lists should include current publications, students are advised (particularly for material marked with an asterisk\*) to wait until the start of session for confirmation of the most up-to-date material)

### **Attendance and Engagement Requirements**

In line with the <u>Student Attendance and Engagement Procedure</u>, Students are academically engaged if they are regularly attending and participating in timetabled oncampus and online teaching sessions, asynchronous online learning activities, course-related learning resources, and complete assessments and submit these on time.

For the purposes of this module, academic engagement equates to the following:

Apprentices's will engage with the module by attending all scheduled synchronous tutorials and participating with all delivered elements of their programme of study. Apprentices must also attend their work-based placement, in line with the requirements of their NHS Employer.

# **Equality and Diversity**

The University's Equality, Diversity and Human Rights Procedure can be accessed at the following link: <u>UWS Equality, Diversity and Human Rights Code.</u>

In line with current legislation (Equality Act, 2010) and the UWS Equality, Diversity, and Human Rights Code (UWS Equality, Diversity and Human Rights Code.), our modules are accessible and inclusive, with reasonable adjustment for different needs where appropriate. To promote inclusive practice, procedures and processes have been subject to Equality Impact Assessment where appropriate. In line with the Equality Act 2010 and UWS Refreshed Equality Outcomes 2021 - 2025 Public Sector Equality Duty Mainstreaming and Equality Outcomes Report 2021 the School of Health and Life Sciences encourages the disclosure of support requirements, including disability, at the recruitment stage and throughout the duration of the module. Emphasis is placed on confidentiality of information the benefits of disclosure and that no detriment to progress will be experienced. The School will endeavour

to make reasonable adjustments to teaching and learning approaches and arrangements for assessment, and (when applicable) periods of placement, where appropriate.

All learning materials, activities and scenarios will utilise a diverse range of patients to reflect the diversity of students. Professional programmes have Standards of Proficiency which detail the knowledge, skills and understanding required to be met to permit professional registration to be able to practise safely and effectively in the profession. As an education provider for this professional programme, UWS is not able to adjust these standards. However, we can make reasonable adjustments to assist students in meeting these standards.

(N.B. Every effort will be made by the University to accommodate any equality and diversity issues brought to the attention of the School)
