#### **Summary of Module**

This module explores the core concepts and theories associated with sport tourism and sporting events. Students investigate drivers, motivations and the tourist sporting event market alongside the bidding, planning and staging processes associated with large scale sporting events and the sport tourism industry.

Three themes permeate the module:

Sports event tourism: This theme explores the rationale for utilising sports events as a strategic driver of tourism at local, national and international levels. It considers the planning, design and marketing of planned sports events as visitor attractions and assesses their impact upon host destinations. Drawing upon relevant case studies, students develop an understanding of the competitive bidding environment and reflect upon the complex processes undertaken to secure major events. This theme also considers the future of major events within sustainable tourism strategies.

Strategic planning for sports events: This theme addresses the planning, developing and marketing of planned sports events. Management of sports events for social, economic, environmental and tourism benefit are examined.

Operational delivery of sports events: This theme considers the event planning process, principles of event management and event organisation of a sport event. The application of theory in event teambuilding, event planning, administration, marketing, finance, health and safety/risk, event monitoring and control techniques in relation to the organisation of a sport event are covered.

This module will assist the student in the development of key 'I am UWS Graduate

## **Learning and Teaching**

In line with current learning and teaching principles, a 20-credit module includes 200 learning hours, normally including a minimum of 36 contact hours and maximum of 48 contact hours.

On-campus learning events focus on providing active and interactive learning, supported by readings, resources and other activities for students to prepare (pre-learning event) and consolidate learning (post-learning event)

Asynchronous activities will be provided and designed as supplementary activities to support on campus learning events. These should be associated with learning event preparation or post learning event consolidation. Such activities will not be included within module contact time.

A 20-credit module constitutes 200 hours of total learning and assessment time for the student, or c.13 hours per week over a 15-week term.

Learning Activities  During completion of this module, the learning activities undertaken to achieve the module learning outcomes are stated below:	Student Learning Hours  (Note: Learning hours include both contact hours and hours spent on other learning activities)
Tutorial / Synchronous Support Activity	24
Asynchronous Class Activity	9
Laboratory / Practical Demonstration / Workshop	3
Independent Study	164

Mallen, C. & Adams, L. (2013) Event Management in Sport, Recreation & Tourism: Theoretical & Practical Dimensions, Routledge

Masterman, G (2013) Strategic Sports Event Management (3rd edition). Routledge

(N.B. Although reading lists should include current publications, students are advised (particularly for material marked with an asterisk\*) to wait until the start of session for confirmation of the most up-to-date material)

### **Attendance and Engagement Requirements**

In line with the <u>Student Attendance and Engagement Procedure</u>, Students are academically engaged if they are regularly attending and participating in timetabled oncampus and online teaching sessions, asynchronous online learning activities, course-related learning resources, and complete assessments and submit these on time.

For the purposes of this module, academic engagement equates to the following:

100% Attendance at all module events and consistent weekly engagement with online materials.

## **Equality and Diversity**

The University's Equality, Diversity and Human Rights Procedure can be accessed at the following link: <a href="UWS Equality">UWS Equality</a>, <a href="Diversity">Diversity and Human Rights Code</a>.

In line with current legislation (Equality Act, 2010) and the UWS Equality, Diversity, and Human Rights Code, our modules are accessible and inclusive, with reasonable adjustment for different needs where appropriate. Module materials comply with University guidance on inclusive learning and teaching, and specialist assistive equipment, support provision and adjustment to assessment practice will be made in accordance with UWS policy and regulations. Where modules require practical learning or assessment, alternative formats and/or roles will be provided for students with physical disabilities which impact participation.

(N.B. Every effort will be made by the University to accommodate any equality and diversity issues brought to the attention of the School)
