Module Descriptor

Title	Leadership In Healthcare		
Session	2024/25	Status	Active
Code	NURS09232	SCQF Level	L9
Credit Points	40	ECTS (European Credit Transfer Scheme)	20
School	Health and Life Sciences		
Module Co-ordinator	Lynne Carmichael		

Summary of Module

This leadership module commits the student to working in partnership with a range of communities of practice that meet the needs of the local, national and international populations. Using a student centered approach to learning, the student will develop a theoretical underpinning of leadership and apply this to contemporary nursing practice. Being adept in recognising leadership theories will assist students to become better leaders which will enhance inter-professional working.

This module will also explore the nature of leadership inclusive of autonomous practice, self-awareness, emotional intelligence, delegation, managing conflict and the leadership and development of others. Consideration will also be be given to preparing students with fundamental knowledge and skills required to develop clinical leadership that will contribute to developing future health services. The application of these skills will develop students' confidence in communicating for influence and accountability to deliver positive outcomes. The aim of this module is to prepare the student to become a safe, competent and evidence-based practitioner at the point of registration.

• Leadership in nursing will be explored along with development of the nurse as a professional.

• Students will develop skills in supervision of others including more junior students in preparation for their role as Practice Supervisors on registration.

• Policies (Local to National) related to Leadership will be examined including the differences between management and leadership and current theories of leadership and transformational practice.

• Students will explore strategies for change and quality improvement in preparation for their transition to registrants.

• Programme threads of Learning Disability, Digital Health Technology and Compassion will inform module content. Specifically, Examine the principles and provisions of legislation to protect and improve the experiences for people with learning disabilities, including making reasonable adjustments; TEC Scotland systems work; understand self-compassion and appreciate the impact this can have on the care being delivered and self-compassion and

compassionate care with fatigue and burnout and understand the impact of this on healthcare.

• Specific Annexe A & B skills for this module are detailed in the programme skills schedule and preload is related to communication skills for assessing, planning, providing and managing best practice, evidence-based nursing care. Evidence-based, best practice communication skills and approaches for providing therapeutic interventions and approaches for working with people in professional teams

Campuses for Module Delivery	☒ Ayr ☒ Dumfries	☒ Lanarkshire ☐ London ☒ Paisley	☐ Online / Distance Learning ☐ Other (specify)	
Terms for Module Delivery	Term 1 ☐	Term 2 ☐	Term 3 ☐	
Long-thin Delivery over more than one Term	Term 1 – Term 2 ☐	Term 2 – Term 3 ☒	Term 3 – Term 1 ☐	

Learning Outcomes	
L1	Apply knowledge of effective health leadership and its impact at local, national and international levels
L2	Critically appraise approaches to lead person-centered health and social care for adults who have a variety of healthcare needs.
L3	Critically analyse the support and supervision of others delivering care.
L4	Demonstrate the ability to work autonomously and lead a care team.
L5	Demonstrate evidence of achievement of the required standards of proficiency associated with your professional discipline.

Employability Skills and Personal Development Planning (PDP) Skills	
SCQF Headings	**During completion of this module, there will be an opportunity to achieve core skills in:**

[1] Where contact hours are synchronous/ live and take place fully on campus. Campus-based learning is focused on providing an interactive learning experience supported by a range of digitally-enabled asynchronous learning opportunities including learning materials, resources, and opportunities provided via the virtual learning environment. On-campus contact hours will be clearly articulated to students.

[2] The module includes a combination of synchronous/ live on-campus and online learning events. These will be supported by a range of digitally-enabled asynchronous learning opportunities including learning materials, resources, and opportunities provided via the virtual learning environment. On-campus and online contact hours will be clearly articulated to students.

[3] Where all learning is solely delivered by web-based or internet-based technologies and the participants can engage in all learning activities through these means. All required contact hours will be clearly articulated to students.

[4] Learning activities where the main location for the learning experience is in the workplace. All required contact hours, whether online or on campus, will be clearly articulated to students

Knowledge and Understanding (K and U)	**SCQF 9** Developing a broad knowledge and understanding of local, national and international leadership strategies/theories. Demonstrate an awareness of their own leadership style and an understanding of how they influence delivery of healthcare. Critically appraise leadership in nursing within the boundaries of the module, including: leadership skills, decision-making, delegation and prioritisation of care.
Practice: Applied Knowledge and Understanding	**SCQF 9** Apply knowledge from a variety of sources to explore the complexities of leadership within a healthcare environment. Application of relevant theories to the supervision, education and development of junior staff, carers and other stakeholders in health and social care. Critically review by application of: clinical simulated scenarios, inclusive of patient, family and carer perspectives. Working towards completion of the NMC (2018) Standards for Pre-registration Nurse Education.
Generic Cognitive skills	**SCQF 9** Use appropriate search strategies to review literature that explores the impact of leadership in the delivery of healthcare. Undertake critical analysis, evaluation and synthesis of principles of professional practice, leadership, development of self and others. Uses a range of resources to reflect on the complexities of leadership and evaluate responses to make safe informed, evidence based care management decisions.
Communication, ICT and Numeracy Skills	**SCQF 9** Demonstrate safe and effective professional communication with an inter-professional and multidisciplinary teams. Demonstrate a range of methods to communicate health related concepts effectively to people, their families, and carers. Development of increasing autonomy and competence in relation to engaging in difficult conversations, including breaking bad news and support people who are feeling emotionally or physically vulnerable or in distress. Use a range of digital resources to enhance learning.
Autonomy, Accountability and Working with Others	**SCQF 9** Demonstrate the ability to work within professional, legal and ethical frameworks underpinning nursing practice. Critically appraisal of own and others' roles and responsibilities when carrying out and evaluating tasks. Take the lead and responsibility for aspects of own practice and exercise autonomy of current professional practice.

	Other	

Co-requisites	Module Code	Module Title

Learning and Teaching

In line with current learning and teaching principles, a 20-credit module includes 200 learning hours, normally including a minimum of 36 contact hours and maximum of 48 contact hours.

Learning Activities	Student Learning Hours
During completion of this module, the learning activities undertaken to achieve the module learning outcomes are stated below:	(Note: Learning hours include both contact hours and hours spent on other learning activities)
Lecture / Core Content Delivery	12
Tutorial / Synchronous Support Activity	25
Laboratory / Practical Demonstration / Workshop	25
Asynchronous Class Activity	25
Work-based Learning	560
Personal Development Plan	13
TOTAL	660

Indicative Resources

The following materials form essential underpinning for the module content and ultimately for the learning outcomes:

The following materials form essential underpinning for the module content and ultimately for the learning outcomes:

Barr, J & Dowding, L (2019) Leadership in Health Care, 4th ed. SAGE, London https://uk.sagepub.com/en-gb/eur/leadership-in-health-care/book261742#contents

(N.B. Although reading lists should include current publications, students are advised (particularly for material marked with an asterisk*) to wait until the start of session for confirmation of the most up-to-date material)

Attendance and Engagement Requirements
In line with the Student Attendance and Engagement Procedure, Students are academically engaged if they are regularly attending and participating in timetabled on-campus and online teaching sessions, asynchronous online learning activities, course-related learning resources, and complete assessments and submit these on time. **For the purposes of this module, academic engagement equates to the following:** 100% attendance in Practice Placement areas is required by the end of the programme to meet NMC requirements. In this module students may be assessed if at least 70% of the practice learning experience is met.

Equality and Diversity
The University's Equality, Diversity and Human Rights Procedure can be accessed at the following link: UWS Equality, Diversity and Human Rights Code. For students who have disclosed a disability, the UWS Disability Service (DS) will assess the individual's strengths and support needs and then forward a Student Support Form to the appropriate DS Co-ordinator who will circulate the form to all of the relevant teaching staff. 'Reasonable adjustments' may include adapted or specialised clinical equipment (e.g. electronic stethoscope, coloured overlays) or further specialist assessment or support (e.g. assessment by an Educational Psychologist, extended time for presentations or assessments). If funding is required, this can be organised by the DS and funded by the School. Reasonable adjustments, in line with DS recommendations for the assessment of the individual student can be assured. This module has a practice element and takes account of the Nursing and Midwifery Council's statement on reasonable adjustments (NMC 2019) (https://www.nmc.org.uk/globalassets/sitedocuments/eandd/reasonable-adjustments-policy.pdf). In particular section 23: "The (Equality)Act 2010 makes it clear that it is not discriminatory to apply competence standards (which include our Code, our revalidation and our education standards) to a disabled person. As a professional regulator responsible for protecting the public, it would not be right for us to adjust these standards. However, we can make reasonable adjustments to assist nurses, midwives and nursing associates in meeting our standards
(N.B. Every effort will be made by the University to accommodate any equality and diversity issues brought to the attention of the School)

Assessment (also refer to Assessment Outcomes Grids below)
Assessment 1
Assessment Component 1 - ePortfolio exploring professional development in line with NMC revalidation requirements. (100% weighting)
Assessment 2
Assessment Component 2 – Placement - This component has a pass/fail mark (0% weighting)
Assessment 3
Assessment Component 3 - NMC Practice Hours evidenced/achieved in line with NMC standards.
(N.B. (i) Assessment Outcomes Grids for the module (one for each component) can be found below which clearly demonstrate how the learning outcomes of the module will be assessed.   (ii) An indicative schedule listing approximate times within the academic calendar when assessment is likely to feature will be provided within the Student Module Handbook.)
