Summary of Module

This module is specifically designed to make students more employable by developing their understanding of current theory through the application to practice in the sports industry. This is facilitated through the provision of a meaningful and relevant work placement, with the module also introducing aspects of entrepreneurship and business development.

The module provides students with practical focus to address issues relating to securing employment and training beyond their studies. Practical work experience is supported by current and appropriate theoretical research, seminars, and guest lectures.

The module is delivered using a long-thin approach, with lectures and seminars over Terms 1 and 2. Module content is provided in conjunction with the local authority, who deliver a range of workplace training in T1 and support students on a number of different placements opportunities throughout the organisation. Students are also permitted to source their own placements, subject to approval.

This module develops students in relation to the 'I am UWS' Graduate Attributes:

Universal – Inquiring, Emotionally intelligent and Socially responsible

Work Ready – Digitally literate, effective communicator and Socially responsible
