### Summary of Module

Sports are social phenomena and an integral part of many cultures and societies. Understanding the nature of social interaction and the elements which shape cultures both within the U.K. and internationally is essential for those embarking on a career in sport development. The module provides students with an opportunity to demonstrate their understanding of a variety of social issues in sport development and develops their awareness of sociological theories that underpin those issues. Module content will be contextualised and flexible to reflect existing and emerging social issues.

The approach to teaching and learning will incorporate taught sessions and student-centred activities. This approach will enable students to deepen their understanding through knowledge transfer, problem-based learning, and case studies.

This module develops student in relation to the "I Am UWS" Graduate Attributes:

Universal – Inquiring, Culturally Aware, Socially Responsible

Work-Ready – Knowledgeable, Motivated, Ambitious

Successful – Autonomous, Resilient, Transformational

Successful completion (including achieving a pass) of this module SPOR09054 Social Issues in Sport by BSc (Hons) Sport Development\* students partially fulfils CIMSPA (the Chartered Institute for the Management of Sport and Physical Activity) endorsement for the professional standard: Aspiring Manager (along with several other modules across the duration of studies, including completion of L10, also required to achieve endorsement). CIMSPA have career advice and further learning resources available for members. From September 2025, UWS students can receive free membership of the student category. To use the professional standard in practice, practitioner membership is required.

\*The Aspiring Manager professional standard is only available to BSc (Hons) Sport Development students as it aligns with several modules which are specific to this programme; students on other programmes can obtain CIMSPA professional standards across specific modules at L7 and L8.
