### Summary of Module

The module covers the elements that must be considered in health and wellbeing in the workplace. It follows on from level 9 modules and introduces the knowledge required to progress on to healthy working lives in the workplace. Factors influencing stability and change will be covered, the promotion of health, reduction of health inequalities and prevention of conditions that impact on health. Management roles in the incorporation and engagement of agencies; policies covering return to work, redeployment and lighter duties; and the implementation of the application of approaches to counselling, relocation and confidentiality will all be covered. Guest speakers and lecturers, where appropriate, will provide a wide range of views and backgrounds, including public health, occupational health, environmental health, human resources and facilities management. This module is assessed by an on-going portfolio and presentation.

Undertaking this module will help you to further develop the range of 'I am UWS' Graduate Attributes.

Universal – development of critical thinking, ethically and research minded.

Work Ready – an effective problem solver, communicator and ambitious.

Successful – by being autonomous, resilient and driven
