General Overview

The BA(Hons) Business & HRM at the University of the West of Scotland is a highly specialist degree programme, designed to support and develop current and future professionals in human resource and people management.

In line with the UWS Curriculum Framework, aiming for flexibly (using best-in-class technologies and pedagogies, meeting the learning needs of students in contemporary Scotland) and inclusive (recognising the diversity of the student body, and the need to be accessible to all) education, the programme is designed around the various needs of our diverse student body. This means the programme is offered on a full- and part-time basis across all four years.

The programme has been accredited by the Chartered Institute of Personnel and Development (CIPD) (PENDING), and therefore meets the highest standards in the profession of human resource and people management. For that reason, the programme design is driven by the CIPD Core Knowledge and Core Behaviour, in line with the CIPD CPD Map, as outlined below:

- **Core knowledge:** People Practice; Culture and Behaviour; Business Acumen; Analytics and Creating Value; Digital Working; and Change.
- **Core behaviour:** Ethical Practice; Professional Courage and Influence; Valuing People; Working Inclusively; Passion for Learning; Insights Focused; and Situational Decision Making; Commercial Drive.

On successful completion of the Honours degree, students will obtain the Level 5 (Intermediate) qualification from the Chartered Institute of Personnel and Development (CIPD). Furthermore, both the university and the programme aim at making a contribution not only to the human resource and people management profession, but also to communities and the wider society. This is nurtured by a pro-active approach towards incorporating the UN Sustainable Development Goals (UNSDG), with a focus on the following:

- **UNSDG 4:** Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all;
- **UNSDG 5:** Achieve gender equality and empower all women and girls.

The aim of working towards achieving these principles are embedded throughout the entirety of the BA(Hons) Business & HRM at UWS, and through the provision of the opportunity to develop requisite knowledge, critical thinking and skills. The programme has been designed to deliver up-to-date practical and professional skills, underpinned by appropriate academic theory. This is fostered by a comprehensive learning journey, supported by a clear programme structure — in line with the UWS Curriculum Framework, aimed at delivering coherent and authentic education:

- **Year 1: Foundation of Business, Human Resource & People Management:**
 - First year lays the groundwork for the successful completion of the degree programme in Business & HRM by providing an overarching outline of key business- and HRM-related concepts. These include a fundamental understanding of people management, marketing, accounting and finance, among others.
- **Year 2: Generalist Human Resource & People Management:**
 - Second year of the programmes focuses on the further development of a generalist understanding of human resource and people management, the role it plays in organisations and its contribution to organisational success. This also includes areas such as organisational behaviour, employee health and well-being and talent management.
- **Year 3: Professionalism in Human Resource & People Management:**
 - Third year places a strong emphasis on the understanding and alignment of skills, knowledge and behaviours to the CIPD CPD Profession Map, as well as helping students to develop key research skills, preparing them for their Honours Project in fourth year. In addition, third year outlines contemporary issues in HRM, such as technology and sustainability, employee performance and reward, and the employment relationship.
- **Year 4: Specialism in Human Resource & People Management:**
 - In fourth year, students will explore a variety of more specialist areas within human resource & people management, including HR Strategy & Change, HR Policy & Practice, international HRM and Equality, Diversity & Inclusion. This is further nurtured by the completion of the Honours Project, where students will conduct their

own research project, exploring a contemporary issue in human resource & people
management in great depth.

-

Therefore, the programme takes a strategic approach to developing skills and knowledge across all four years, throughout which it develops students' intellectual and imaginative understanding and judgement, the ability to resolve problems effectively and the ability to recognise the relevance of a wide variety of approaches fundamental to human resource and people management. The programme engenders an analytical and creative approach, encourage independent judgement and critical self-awareness all directed towards continual improvement in the business and human resource/people areas.

Students studying for a single title in Business & HRM are expected to achieve all of the learning outcomes of this programme. The programme is delivered on a full-time basis and can be completed in four years for an Honours degree and three years for an Ordinary degree. The part-time programme is delivered during the day and can be completed on a flexible basis.

On completion of the BA(Hons) Business & HRM, graduates may follow a variety of routes at post-graduate level both within the University and at other Higher Education Institutions. These may be at Masters level or Research degrees. They may also pursue professional advanced Human resource qualifications accredited by the Chartered Institute of Personnel and Development (CIPD).

Graduate Attributes, Employability & Personal Development Planning

In line with the UWS Curriculum Framework, the BA(Hons) Business & HRM utilises a range of learning, teaching and assessment methods to enable learning outcomes to be achieved — fostered by the university's contemporary approach to hybrid learning. This approach exposes students to the wide range of learning, teaching and assessment methods in order to assist in the development of a variety of skills within students and to achieve a wide range of learning outcomes.

The learning outcomes throughout the programme have been designed to ensure that, in addition to the development of knowledge and understanding of the business environment and HRM, students will have the opportunity to develop academic and employability-focused skills and attributes that are most valuable in the labour market.

In supporting and reinforcing the development of these skills, students undertake the Aspire throughout year 1, 2 and 3. These modules focus on personal development planning and student reflection, as well as the development of abilities in areas such as numeracy, languages, study skills, writing skills, time management skills etc.

Furthermore, the programme aims at providing a meaningful balance between academic knowledge and employability-focused skills within its assessment strategy. This includes the use of written assignments, presentations, assessment centres/in-trays, role plays, among others.

Work Based Learning/Placement Details

There are no formal arrangements for Work-based learning and/or placement opportunities currently embedded into the programme. However, we support our students in obtaining relevant work experience.

Engagement

In line with the [Academic Engagement Procedure](#), Students are defined as academically engaged if they are regularly engaged with timetabled teaching sessions, course-related learning resources including those in the Library and on the relevant learning platform, and complete assessments and submit these on time. Where a programme has Professional, Statutory or Regulatory Body requirements these will be listed here: Please refer to the University of the West of Scotland Engagement Policy.
